Attn: Complaints Eib,

After brief consultations with our organizations involved we choose to challenge the Barro Blanco Hydroelectric project by the EIB's complaint mechanism. Our main concern is that EIB not finance such project for Human Rights Violations cited in our comments and the additionality aspects ; At present there are MORE than 100 hydroelectric projects under study or in different phases of construction and operation, the majority in the province of Chiriqui. Clearly there is a SUPERAVIT energy production at present. There are Aeolic projects being promoted which are less harmful for the communities Therefore we do not consider this project to be indispensable. It will create more harm than benefits.

Truly Yours:
Oscar Sogandares G

European Investment Bank:

We hereby wish to submit to your attention vital documents objecting the granting of CER's and Banking Credits and for the financing of the the Hidroelectric Project Barro Blanco promoted by the Spanish company [REDACTED] ([REDACTED]) to be located in the Tabasara River within the Ngobe Bugle Indigenous region, the provinces of Chiriqui and Veraguas in the Republic of Panama.

Therefore we attach all vital objections and documentation (in English) for project Barro Blanco from our organizations concerned especially from the Indigenous Movement M10 10th of April from the Tabasara. Also included is Ambientalistas from Chiriqui and Asociacion Ambientalista de Chiriqui (ASAMCI) and Alianza para la Conservacion y el Desarrollo (ACD).

I will procede to attach the corresponding English versions (Please acces the sites indicated for the Spanish versions). The first writing River Tabasara has several PDF annex supporting files such as newspaper clippings and photographs. I will not attach these except the first one Movimiento M10 2003-2005.pdf (and one additional report) for documentation purposes so not make the mailing very slow. Therefore I will only submit the links where we have all of these stored in the internet.
