Dear Sir/Lady,

European Investment Bank (EIB) has informed on its web page about its intention to co-finance project D4R7 SLOVAKIA PPP. We have decide to object to this project. In our opinion it is insufficiently prepared, non-transparent in key aspects and threatening sustainable socio-economic development of our country. Our complaint with all relevant information you can find in an attachment. We expect that EIB will reconsider its intention to support this project unless it's redesigned and there won't be any reasonable doubt that the purpose of the project is a satisfactory value for money and a benefit to Slovak society.

Kind regards,
