Fax number	
Subject	maladministration
What are the details of your complaint?	<p>In our region (Romania - Sibiu county) a road is rehabilitated with funds from EIB . Rehabilitation of DN14 Sighisoara - Medias - Sibiu is the title I guess . The company has started work since over 1 year on the whole portion of the road -100 km . A lot of bumps and holes all road . these bumps and holes were very easy to be remediated with less effort and cost but they haven't had the willing . Another aspect is that on some portions of the road where was enlarged , the new part has failed down . I think it is a bad work , a tipical proiect where gipsy thieves from Bucharest has stolen again a lot of money from the citizens pocket . Please do not finance anymore such kind of work and companies and set an office here if you finance projects . Dont let gypsies from Bucharest to manage something , not even a cent . They know only to cheat , lie and steel I am not an engineer but I have doubts that the work done is of good quality and the road will last without repairs . I can bet half of my money on that .</p>
What do you expect to achieve?	<p>I expect EIB to take the lead and remediate the situation . Things like that for sure not happens in Luxembourg or other civilised country . Regards</p>

priorContact	Yes
With whom?	investigation officer
