Call for Expression of Interest: to select a financial intermediary that will receive resources from the Fund of Funds Kujawsko-Pomorskie to implement a financial instrument in the Kujawsko-Pomorskie Voivodeship/Poland

Ref.: CFT-1606

1. Introduction

As part of the Regional Operational Programme for the Kujawsko-Pomorskie Voivodeship for the programming period 2014-2020 (“ROP K-PV 2014-2020”), with the purpose of tackling the market failures identified by the ex-ante assessment (“Ex-ante Assessment”), the Board of the Kujawsko-Pomorskie Voivodeship, acting as the ROP K-PV 2014-2020 Managing Authority (“Managing Authority” or “MA”), has agreed to dedicate resources to the implementation of a Fund of Funds (“Fund of Funds” or “FoF”) managed by the European Investment Bank (“EIB”), in accordance with Article 38 (4)(b)(i) of the CPR and the provisions of a funding agreement entered into on 29 June 2017 between the Managing Authority and the EIB (“Funding Agreement” or “FA”).

Relevant rules for implementing the Financial Instrument (as defined below) are primarily stipulated in the CPR, the CDR, the Implementing Regulation, the ERDF Regulation (respectively as defined below), and applicable national law and regulations.

This Call for Expression of Interest is addressed to eligible financial institutions in the European Union, which are interested in receiving resources from the Fund of Funds for the implementation of the Financial Instrument (hereinafter “FI”) in the Kujawsko-Pomorskie Voivodeship. Such activities shall be carried out in accordance with an agreement (“Operational Agreement”) to be entered into by the EIB acting as manager of the FoF, and the Selected Applicant. The funds shall be transferred from the FoF to the selected Financial Intermediary for a specific period of time and purpose defined in the Operational Agreement.

This document may not be reproduced, copied or stored in any medium without the prior written consent of the EIB except in relation to the preparation of a submission.

All documentation supplied by the EIB in relation to this Financial Intermediary selection process is and shall remain the property of the EIB and must be returned on demand, without any copies being retained. Applicants are not authorised to copy, reproduce, or distribute such documents at any time except as is necessary to produce a submission.

PUBLICITY

Applicants shall not undertake (or permit to be undertaken) at any time, any publicity activity with any section of the media in relation to the Financial Intermediary selection process other than with the prior written agreement of the EIB. Such agreement shall extend to the content of any publicity. In this paragraph the word “media” includes (but without limitation) radio, television, newspapers, trade and specialist press, the internet and email accessible by the public at large and the representatives of such media.

3. Background information

3.1. Financial instruments in the 2014-2020 programming period

Financial Instruments (“FIs”) have been used for delivering investments for Structural Funds since the 1994-1999 programming period. In the light of the current economic situation and the increasing scarcity of public resources, FIs are to play an even more prominent role in Cohesion Policy in the years 2014-2020. It is expected that their use will significantly increase in order to help EU Member States to achieve the Europe 2020 Strategy objectives. From this perspective, FIs are seen as a complement to traditional grant-only financing due to their revolving nature and the ability to attract additional capital from financial institutions and other providers (i.e. leverage effect).

3.2. Financial instruments in the Kujawsko-Pomorskie Voivodeship

In the 2014-2020 programming period, the implementation of the FIs in the Kujawsko-Pomorskie Voivodeship will be conducted based on the Investment Strategy with Business Plan, which outlines the relationships between the Managing Authority and the bodies involved in FI implementation, provides guidance on the design of the implementation system.

The Investment Strategy with Business Plan forms part of the ex-ante assessment which was carried out in line with requirements laid down Article 37 of the CPR and was finalised in December 2016.
The document was adopted by the Board of the Kujawsko-Pomorskie Voivodeship through Resolution No. 24/1126/17 dated 21 June 2017 as amended. It contains the following elements:

a) the investment strategy and policy including implementation arrangements, financial products to be offered, Final Recipients targeted, and envisaged combination with grant support, as appropriate;

b) the business plan for the Financial Instruments to be implemented, including the expected leverage effect referred to in Article 37(2) of the CPR; and

c) the presentation of the target results that the Financial Instruments concerned are expected to achieve to contribute to the specific objectives and results of the relevant Investment Priority.

In line with the Investment Strategy with Business Plan, the selected Financial Intermediary will offer the following financial product: Loan for energy efficiency in buildings.

Projects supported in the above-mentioned areas of support should contribute to the achievement of relevant levels of indicators defined in the Investment Strategy with Business Plan, as follows:

4. The role of the Financial Intermediary

The selected Financial Intermediary will act in accordance with all Applicable Laws and with degree of professional care, efficiency, transparency and diligence expected from a professional body experienced in implementing FIs. To this end, the Financial Intermediary will be asked to identify and provide loans for the implementation of new projects with the view to achieving the required indicators within the established deadlines and manage the created portfolio in compliance with the objectives of this Call.

For these main purposes, the key tasks envisaged for the Financial Intermediary will broadly be, but not limited, to:

- identify, select in a transparent and objective way without any conflict of interest, and lead the negotiation and structuring of financial investments in financially viable projects which fit within the
Investment Strategy with Business Plan of the FoF, eligibility requirements and criteria applicable to ROP K-PV 2014-2020 and the agreed Business Plan of the Financial Intermediary;

- monitor and control projects to provide the necessary information to the FoF, the MA, the Investment Board and authorised entities in order to comply with the reporting obligations towards the Commission in accordance with Applicable Laws;
- undertake information and publicity measures on the involvement of the FI;
- secure the provision of co-financing (as defined below in Section 8 on the Business Plan, subsection 1.5) at the Financial Intermediary level and/or the project level\(^2\) in identified projects to ensure sufficient and appropriate leverage of the funds contributed from the FoF and that sufficient Eligible Expenditure can be declared in those projects in accordance with Applicable Laws;
- actively manage the funds received from the FoF and use accrued interest and other gains attributable to these funds as Eligible Expenditure,
- recommend and manage appropriate exit strategies from project investments.

5. Operational Provisions

5.1. Amounts allocated for the Call of Expression of Interests

It is planned to allocate an amount of up to PLN 63 million\(^3\) for Loans for energy efficiency in buildings. Applicants shall indicate in their offer the minimum amount of funds they would be willing to obtain from the FoF.

The allocated amounts will be disbursed to the selected Financial Intermediary in tranches, each of them not exceeding 25% of the allocated amount. Disbursements of second and subsequent tranches will be dependent on the use of the preceding tranche as Eligible Expenditure in line with Article 41 of the CPR, as follows:

- disbursement of the second tranche shall be made when at least 60% of the amount of the received first tranche has been disbursed as eligible loans and used for management fees;
- disbursement of the third and subsequent tranches shall be made when at least 85% of the amounts of the received preceding tranches have been disbursed as eligible loans and used for management fees.

The EIB shall have the right to make the final decision on the disbursement of each tranche. The disbursement of tranches is subject to the availability of funds received by the EIB from the MA.

The EIB may decide to increase or decrease its commitment to a particular Financial Intermediary, including based on its performance, at any point in time, subject to the prior approval of the Investment Board and the corresponding update of the Investment Strategy with Business Plan. The EIB has also the right to re-allocate funds that the Financial Intermediary has not managed to disburse to another Applicant on the reserve list.

The disbursement of all and any tranches is subject to the availability of funds received by the EIB from the Managing Authority.

\(^2\) The co-financing at the project level must be provided by third-party private or public entities, documentary evidence of which shall be kept by the Financial Intermediary in line with Articles 1(3) to (6) of the Commission Implementing Regulation (EU) No. 821/2014 of 28 July 2014 (OJ L 223 of 29.7.2014, p. 7).

\(^3\) Please note that the presented amount may be decreased by the amount of the management fees paid to the manager of the FoF.
5.2. Indicative Summary Terms of the Operational Agreement

The below indicative summary is an outline of the principal terms and conditions for the Operational Agreement described herein, which are subject to change and non-exhaustive. This section is intended to provide a basis to guide Applicants on what is expected to be contained within the actual Operational Agreement and does not constitute a binding commitment either implicit or explicit on the part of the EIB. A commitment to provide funds under an Operational Agreement will only be made after approval by the Investment Board and the signature of the Operational Agreement.

The Applicant, with which Operational Agreement(s) will be eventually signed, shall be required to comply with obligations including, but not limited to, the following:

1. The requirement to comply with Applicable Laws, including EU and national State aid rules and requirements on eligibility of expenses.

2. The requirement to pursue the objectives set out in the Operational Agreement, which shall include an obligation to act in accordance with the Investment Strategy with Business Plan, in particular the obligation to make investments in projects according to the agreed Business Plan of the Financial Intermediary.

3. The requirement to notify and indemnify the FoF/MA for any loss caused by failure to comply with the Applicable Laws or with the terms of the Operational Agreement.

4. The requirement to notify and indemnify the FoF/MA for any Irregularity occurring at the level of the Financial Intermediary.

5. The requirement to notify and indemnify the FoF/MA for any Irregularity occurring at the level of the Final Recipients unless the Financial Intermediary can prove that it has exercised due diligence in selecting and pursuing, at its own expense, appropriate contractual and legal measures against the Final Recipients to recover the amounts affected by the Irregularity.

6. The requirement to act with a degree of professional care, efficiency, transparency and diligence expected from a professional body experienced in implementing financial instruments. In particular, the Financial Intermediary will, among others, use all reasonable efforts to assess the creditworthiness of the Final Recipients in line with the standard practice, to collect amounts due and to write off the amounts due only if the collection of the amounts due can no longer be reasonably expected.

7. The requirement that the funds allocated to the Financial Intermediary are kept in a separate interest-bearing bank account (the “Disbursement Account”) with a credit institution situated within the territory of a Member State of the EU to which all disbursements under the Operational Agreement are made. Interest payable on the Disbursement Account shall be based on market pricing. Any interest accruing on the balance standing to the credit of the Disbursement Account shall be used by the Financial Intermediary in line with Article 43 of the CPR, unless otherwise instructed by the EIB.

8. The requirement that the resources paid back to the FI from investments but not yet repaid to the FoF, unless specified differently, shall be placed into a separate interest-bearing bank account (the “Reserve Account”) with a credit institution situated within the territory of a Member State of the EU. Interest payable on the Reserve Account shall be based on market pricing. Any amounts accruing on the balance standing to the credit of the Reserve Account, including any accrued interest thereon, shall be used by the Financial Intermediary until the end of the Eligibility Period in line with Article 44 of the CPR, it being understood that any reuse of resources in the context of Operational...
Agreements will be subject to the prior approval by the MA and the corresponding update of the Investment Strategy with Business Plan.

9. The requirement that both the Disbursement Account and the Reserve Account are pledged in favour of the EIB.

10. The requirement that the selection of the Final Recipients is transparent, can be justified on objective grounds, does not give rise to any conflict of interest and takes due account of the nature of the FI and the potential financial viability of the projects to be financed.

11. The requirement to provide support to the Final Recipients in a way that ensures that a commensurate level of financial value added is passed on to the Final Recipients.

12. The requirement to provide support to the Final Recipients in a proportionate manner, which has the least distortive effect on competition.

13. Save where otherwise agreed, the requirement to select the Final Recipients benefiting from the support in line with the Financial Intermediary’s credit risk policy guidelines applicable to comparable loan products funded through the Financial Intermediary’s own resources.

14. The requirement that the funds allocated to the Financial Intermediary are fully contracted with the Final Recipients and the corresponding loan amounts fully disbursed within the period prescribed in the Operational Agreement. The disbursements of funds to the Final Recipients will be made according to the milestones that will be defined in the Operational Agreement. Upon the expiration of the disbursement period, any remaining funds which were not contracted and disbursed and are still held by the Financial Intermediary on the Disbursement Account and/or the Reserve Account, will be returned to the FoF together with any accrued interest thereon. Failure to disburse all the available funds within the period and milestones prescribed in the Operational Agreement shall result in proportional reduction of due management fees in line with Article 12 of the CDR, it being understood that such reduction will apply to a performance-based remuneration as defined in Section 8 on the Business Plan, sub-section 4.1.

15. The requirement to ensure that at any time the proportion of written off amounts due under project loans to amounts disbursed to Final Recipients does not exceed the maximum cap specified in the Operational Agreement.

16. The requirement to provide co-financing to the projects implemented by the Final Recipients from resources additional to the funds received from the FoF, within the period and in the amounts prescribed in the Operational Agreement based on the submitted EoI. Failure to provide the required co-financing shall result in proportional reduction of due management fees, it being understood that such reduction will apply to a performance-based remuneration as defined in Section 8 on the Business Plan, sub-section 4.1.

17. The requirement to achieve the related output and result indicators as required by the Investment Strategy with Business Plan and prescribed in the Operational Agreement. Failure to achieve the minimum levels of required indicators, as provided for in Section 3.2 above, shall result in proportional reduction of due management fees in line with Article 12 of the CDR, it being understood that such reduction will apply to a performance-based remuneration as defined in Section 8 on the Business Plan, sub-section 4.1.

18. The requirement to monitor the implementation of projects by the Final Recipients as required by Applicable Laws. Financial Intermediaries may be required to monitor and report on additional indicators.
19. The requirement to report periodically (on monthly and quarterly bases, and ad-hoc subject to needs) to the EIB on the progress in implementation of the FI, including where required by the MA, the scope of which, templates and standard procedures to be provided by the EIB.

20. The requirement to comply with publicity requirements under the Applicable Laws and the Operational Agreement, including to inform the Final Recipients, in accordance with Article 115 and Annex XII of the CPR, that the funding is provided under co-financed programmes from ERDF under ROP K-PV 2014-2020.

21. The requirement to set up and maintain a separate accounting system or use a separate accounting code for disbursements to the Final Recipients and to maintain an audit trail regarding investments (including identification of amounts disbursed for investment in accordance with any relevant Measures).

22. The requirement to agree that the FIs may be audited (including on the spot verifications) by or on behalf of the EIB, the MA, the Polish audit authority, the Commission and the European Court of Auditors, or other properly appointed body and to allow these entities access to documents related to the FI.

23. The requirement to agree that the Financial Intermediary cannot make a claim for any amount beyond the amount committed to it from the FoF.

24. The requirement to agree that the Financial Intermediary will adopt procedures preventing double financing of projects.

25. The requirement to agree that the Financial Intermediary will ensure that the selected projects are not physically completed or fully implemented at the date of the investment decision.

26. The requirement to maintain confidentiality in relation all personal data entrusted to the Financial Intermediary during the term of the Operational Agreement or documents obtained in connection with the activities covered by this Operational Agreement.

28. The requirement to apply (i) European restrictive measures issued pursuant to Chapter 2 of Title V of the Treaty on European Union as well as Article 215 of the Treaty on the Functioning of the European Union and (ii) United Nations sanctions decided by the UN Security Council pursuant to Article 41 of the UN Charter and (iii) to the extent applicable sanctions imposed by the competent US sanctions authorities (such as the Office of Foreign Asset Control).

29. The requirement to comply with the applicable legislation and market standards, concerning, inter alia, tax fraud, tax evasion, tax avoidance, aggressive tax planning and harmful tax practices. Financial Intermediary shall not (i) be established and shall not maintain business relations with entities incorporated in territories whose jurisdictions do not cooperate with the European Union in relation to the application of the internationally agreed standards with respect to money laundering, financing of terrorism, tax fraud, tax evasion, tax avoidance, aggressive tax planning or harmful tax practices or (ii) engage or promote the engagement in any jurisdiction in activities, arrangements or series of arrangements which, having regard to all relevant facts and circumstances, could reasonably be considered as having been implemented for the purposes of any of the aforementioned.
The Financial Intermediary shall not: (i) be established and shall not maintain business relations with entities incorporated in territories whose jurisdictions do not cooperate with the European Union in relation to the application of internationally agreed standards with respect to money laundering, financing of terrorism, tax fraud, tax evasion, tax avoidance, aggressive tax planning or harmful tax practices; or (ii) engage or promote the engagement in any jurisdiction in activities, arrangements or series of arrangements which, having regard to all relevant facts and circumstances, could reasonably be considered as having been implemented for the purposes of any of the aforementioned. The Financial Intermediary will be required to pass on certain of these obligations (including but not limited to obligations regarding sanctions compliance, Anti-Fraud and AML/CFT to the extent applicable) to Final Recipients and ensure that certain rights and obligations are included in their agreements with Final Recipients (including the right to recover from the Final Recipients any amount that forms an Irregularity).

The Financial Intermediary shall acknowledge the EIB Anti-Fraud Policy which sets out the policy of the EIB for preventing and deterring corruption, fraud, collusion, coercion, obstruction, money laundering and terrorist financing and shall take appropriate measures (as may be further specified in the Operational Agreements) to facilitate implementation of such policy.

The Operational Agreement signed with the Financial Intermediary, including main terms and conditions, may be subject to modifications, to be agreed between parties, in case of changes of prevailing circumstances, following also the agreement of the Investment Board, as the case may be.

5.3 Duration of the Operational Agreement

On an indicative basis, Operational Agreement will remain in force from the date of entering into force up to the winding up of the FI.

Applicants are directed to the important notices below. Unless expressly stated otherwise the terms and expressions used in this document shall have the meanings set out in Section 2 above.

1. All monetary amounts contained in EoIs must be firm and non-revisable, quoted in PLN and free of taxes and duties, the EIB being exempt there from those charges under the Protocol on the Privileges and Immunities of the European Communities.
2. The Applicant must declare that it has taken note of the conditions of the Call for Expression of Interest and has had the opportunity to gauge the scope and quality of the services required, as well as the possible risks and difficulties in the implementation.

3. The Applicant cannot invoke any error, inaccuracy or omission in its EoI to call any Operational Agreement into question or to attempt to have any contract amended.

4. The EIB reserves the right to reject any application that fails to comply with the specifications of this Call for Expression of Interest.

5. The EIB reserves the right to reject any Applicant:
   (i) guilty of material misrepresentation;
   (ii) who contravenes any of the terms of this document; and/or,
   (iii) undergoing a change in identity, control, financial standing or other factor impacting on the selection and/or the evaluation process affecting the applicant.

6. EoIs must be drawn up in writing in English (applications in other languages will not be accepted). Any official documents in a language other than English must be accompanied by a certified translation.

7. Applicants must respond to the requirements set out in this Call for Expression of Interest item by item.

8. The EIB may cancel this Call for Expression of Interest without notice at any time. The EIB reserves the right not to sign an Operational Agreement with any Applicant. Applicants shall respond to this Call for Expression of Interest on the understanding that they would not be entitled to any form of compensation, should the EIB decide to interrupt or cancel the Call for Expression of Interest before the Operational Agreement is signed.

9. EIB has no obligation to enter into an Operational Agreement with the selected Applicant. Following the selection of an Applicant, EIB may enter into an Operational Agreement subject to (i) successful commercial and legal negotiations, (ii) the relevant EIB internal approvals under EIB own rules and procedures, and (iii) the approval of the Investment Board.

10. Participation in this Call for Expression of Interest shall be taken as acceptance of all the terms and conditions mentioned in this Call for Expression of Interest and the conditions of the specifications.

11. The EIB reserves the right to seek additional detail from an Applicant to clarify any part of the Applicant’s EoI.

12. EoI must be drawn up on paper in duplicate, i.e. one original and one copy: each clearly marked “Original” or “Copy” as well as an identical electronic copy on CD or USB stick clearly marked with the name of the Applicant and the Ref. Number. Electronic copies shall be provided in searchable OCR PDF format identical to the paper version and MUST NOT be password protected. In case of discrepancies between the paper and electronic versions, the paper version shall prevail.

13. All Applicants will be informed in writing of the outcome of their applications.

14. Applicants may be invited to a presentation, if the EIB so decides. Applicants will not be permitted to modify the terms and conditions of their EoI during their presentation or at any other time after the application has been submitted to the EIB.

15. The EIB Complaints Mechanism Policy shall apply. In addition, any legal dispute arising out of or related to this procedure shall be resolved by the European Court of Justice.
7. Selection process

Financial Intermediaries shall be selected on the basis of an open, transparent, proportionate, non-discriminatory and objective selection procedure avoiding conflicts of interest, in line with EIB’s policies, rules, procedures and statutes.

Stages of the Selection process:

1. The EIB will reject the EoIs from Applicants which do not comply with the Exclusion Criteria set out under Section 10 below.

2. Those Applicants whose EoI is not rejected according to the Exclusion Criteria will go through the EIB evaluation process based on the Administrative Criteria set out under Section 11 below.

3. Those Applicants whose EoI passes the Administrative Criteria will thereafter be assessed on the basis of the Assessment Criteria set out under Section 12 below.

4. The selection shall be done by establishing a ranking amongst the EoI on the basis of the Assessment Criteria.

5. The Selected Applicant and its EoI will be subjected to a compliance due diligence by EIB.

6. Thereafter a summary of the EoI of the Selected Applicant, who have not been otherwise rejected following the compliance due diligence performed by EIB, shall be submitted to the Investment Board following EIB recommendation for its consideration and approval. Following the approval of the Investment Board, the EIB shall commence negotiations with the Selected Applicant with a view to concluding an Operational Agreement. The remaining Applicants, if any, that have not been excluded on the basis of the Exclusion Criteria and have passed the Administrative criteria, may, at the discretion of the EIB, be included in a reserve list for a period of twelve months from the date of submissions of the EoIs which may be renewed for further periods of 24 months at the discretion of the EIB.

7. All Applicants who have submitted EoIs will be informed in writing of the outcome of the evaluation.

8. If the EIB and the Selected Applicant fail to reach agreement on the terms of an Operational Agreement or if the Operational Agreement with the Selected Applicant is fully or partially terminated irrespective of the cause, the EIB may enter into negotiations with a view to concluding an Operational Agreement with the Applicant ranked first on the reserve list and so on.

9. The EIB may, in the context of the above, perform one or more due diligence processes, on any of the Selected Applicant(s) and their EoIs, with a view to confirming the findings of the Evaluation process.

8. Minimum Content of the Business Plan

Applicants are expected to submit in their EoI one Business Plan that includes all the applicable elements and specific information required in order to comply with the requirements of this Call for Expression of Interest.

The Business Plan to be included in the EoI must address the areas detailed below.

| I. Investment Policy |
The Applicant should put forward its investment policy and explain how it can reach the objectives initially specified in the Investment Strategy with Business Plan.

The Applicant shall indicate that support will be granted only in the form of Loans for energy efficiency in buildings and only for projects eligible under the Measure 3.3 of ROP K-PV 2014-2020, and compliant with the provisions of the Investment Strategy with Business Plan and Applicable Laws.

The presentation of the Applicant’s investment policy may refer to the best practices and benchmarks in this field as described by the Applicant.

In particular the investment policy should address the following:

1.1. Consistency with objectives of the Investment Strategy with Business Plan

This section should explain what role the Applicant will assume in implementing the FI. It should outline the objectives of the Applicant and link these to the objectives defined in the Investment Strategy with Business Plan.

1.2. Compliance with eligibility conditions

In this section the Applicant should evidence how it meets the conditions set out in Article 7(1) of the CDR:

- entitlement to carry out the implementation tasks under EU and national law;
- adequate economic and financial viability;
- adequate capacity to implement the FI, including organisational structure and governance framework providing the necessary assurance to the Ministries;
- existence of an effective and efficient internal control system;
- use of an accounting system providing accurate, complete and reliable information in a timely manner;
- agreement to be audited by Member State audit bodies, the Commission and the European Court of Auditors.

Furthermore, the Applicant should confirm that it complies with the requirements set out in Articles 33(1) and 209(2) of the Omnibus Regulation. Although different types of projects can be distinguished, all projects shall demonstrate the following parameters:

1.2.1. General requirements:

- compliance with Applicable Laws;
- soundness in terms of business model, cash flows, partners, etc.;
- projects shall be structured in such a way so that they generate revenue, as required by ESIF Regulations;
- projects shall ensure appropriate economic and / or social benefits.

1.2.2. Requirements related to the Investment Strategy with Business Plan:

- projects shall be compliant with applicable eligibility rules;
- projects shall contribute to the objectives stipulated in the Investment Strategy with Business Plan;
c) projects shall contribute to the achievement of the respective output and result indicators as defined in the Investment Strategy with Business Plan.

1.2.3. Financial, economic and social parameters:

a) Financial criteria will differ according to the projects and shall be established by a Financial Intermediary on a case by case basis. These criteria may include: internal rate of return, net present value, pay-back period, cash flow profile, availability and form of collateral (if required), other financial indicators typically used in credit analysis, etc. There are no specific requirements imposed on projects with respect to financial criteria other than those described in the relevant ESIF Regulations. Each Applicant shall present their views on what financial criteria shall be met by projects in order to achieve desired objectives. It is acknowledged that for some projects precise calculation of financial indicators may not be possible at the time of presenting the EoI. In such cases the EoI will still be acceptable.

b) The assessment of projects as regards their economic sustainability and impact should include the following aspects of the projects: cost / benefit analysis (where possible to prepare), contribution to meeting relevant output and result indicators defined in the Investment Strategy with Business Plan, potential to attract additional funding from other public and private sources, potential to attract investors in other projects, which would be complementary or which could create economic or social synergies.

c) The assessment of projects should include cost effectiveness, i.e. the ratio of the total value of the project to the total value of kWh/m² saved per year as a result of investment, calculated for the period of 12 months taking into account increase in % of achieved energy efficiency (achieved energy effect) after project’s completion and environmental effect, i.e. reduction of emissions (in particular CO₂ emissions) as a result of project’s implementation, as specified below in Section 1.3.

1.3. Description of the product

The below description of the terms of the financial product to be offered under the FI is indicative and non-exhaustive and may be subject to change in accordance with the relevant legal acts and the final terms of the Operational Agreement.

The selected Financial Intermediary will receive funds from the FoF to invest in projects through loans. The terms and conditions of financing from the FI should be sufficiently more advantageous in relation to market terms, so that due to FI financing, the rate of return for providers of debt to a given project reaches a fair market level, where applicable.

Financing will be aimed to support investments in the areas described in Section 3.2 of this Call. It is expected that the EoIs submitted by the Applicants comply with the minimum terms as set below. More detailed parameters of the financial product will be negotiated with successful Applicant and included in the Operational Agreement.

**Loan for energy efficiency in buildings**
The financial product to be offered is a risk-sharing market rate or preferential loan that should include at least the following indicative parameters:

1. PLN-denominated investment loan;
2. loans should be newly generated;
3. maximum loan amount should not exceed PLN 10 million;
4. lending period up to 36 months;
5. loan maturity period up to 240 months;
6. grace period for capital repayments up to 24 months4;
7. cap on losses: 10%;
8. preferential interest rate of loan in part financed from the ROP K-PV 2014-2020 contribution:
   - energy effect from 25% to 60%: interest on the loan = 0.2% annually;
   - energy effect over 60%: interest on the loan = 0% annually;
9. interest rate of loan in part financed from the Financial Intermediary’s own funds in line with the Financial Intermediary’s standard credit policy;
10. eligible Final Recipients (borrowers): housing co-operatives and housing communities (excluding entities eligible for support under Operational Programme Infrastructure and Environment), other owners / managers of multi-family residential buildings, in particular: local government units; unions of local government units; associations of local government units; local government organizational units; other units of the public finance sector; municipal enterprises5;
11. estimated number of Final Recipients: 20-30;
12. description of eligible investments:
   - financing will be granted to projects involving comprehensive energy upgrades of multi-family residential buildings leading provision of thermal upgrade, replacement of roofing, windows, exterior doors and lighting, conversion of heating systems (including replacement and connection of heat sources), ventilation and air conditioning systems as well as the implementation of building management systems, implementation of micro-cogeneration or micro-trigeneration for own needs, construction and redevelopment of RES installations in buildings subject to energy upgrading, provision of cooling systems, including from RES,
   - projects eligible for financing must result in energy efficiency increased by no less than 25%, based on energy audit findings; preference will be given to projects with energy efficiency increase above 60%,
   - possibly low security requirements;
   - investments must result from a low-carbon economy plan;
   - energy audits should include the analysis of environmental effect;
   - as regards investments involving building wall insulation and other types of facility sealing works, it will be necessary to carry out an ornithological expertise;
   - in case of individual heat sources, coal-fired stoves will not be co-financed; supported investments must result in reduction of CO₂ emissions by at least 30%; replacement of

4 For the avoidance of doubt, a grace period for capital repayments does not extend the loan maturity period.
5 Eligible Final Recipients must be seated or have a branch and operate on the territory of the Kujawsko-Pomorskie Voivodeship.
heat source will not be eligible if a building is connected to a district heating / cooling system, or if such connection is possible and economically feasible, replacement of heat source is possible only if conducted simultaneously with other comprehensive energy upgrading works;

- assistance may be granted providing that individual heat consumption meters, hot water meters and cold water meters are applied, if provided for in a relevant energy audit; the installation of meters is not obligatory if not technically and economically justified, or if the building subject to thorough energy upgrading has been equipped with the above-mentioned devices.

It is required that the Final Recipients present an energy audit report to justify the scope of the project and confirm that at least the minimum required energy savings will be achieved.

It is considered to offer Financial Intermediary a possibility to receive additional financial support in identifying and screening projects to be supported by the FI and to finance energy audits, it being understood that such support will be provided in the form of a grant in addition to the amounts specified in section 5.1 and outside the management fees.

More details can be found in the Investment Strategy with Business Plan.

1.4. Target market

This section should clearly and briefly specify the characteristics of the target Final Recipients. This should be based on the type of Final Recipients mentioned in the Investment Strategy with Business Plan and should take into account specific requirements regarding geographic locations of investments.

1.5 Leverage / Co-financing

The Applicant should describe the envisaged strategy for attracting other public/private investment into the FI in the form of additional co-financing. It should also outline the leverage effect that will be generated from this additional co-financing using the following multiplier:

\[
\text{Leverage} = \frac{\text{Total finance reaching Final Recipients}}{\text{ERDF contribution under ROP K-PV 2014-2020}}
\]

The estimated leverage is expected to reach at least the rate of 1.1-1.2 at the portfolio’s level. The minimum amount of additional co-financing is set at the level of 15% of total amount. The targeted additional co-financing, however, is 100% of the amount received by the Financial Intermediary from the FoF. There must be no preference of co-financing over the funds contributed from the FoF.

It is proposed to Financial Intermediaries to sub-ordinate the ERDF financing under ROP K-PV 2014-2020 to the co-financing, i.e. repayments would first be used to reduce the Financial Intermediaries’ loans from own funds before the ERDF loans under ROP K-PV 2014-2020 are being serviced. In this way, the risk and maturities of the co-financing would be significantly reduced, thus resulting in much lower interest rates. In line with the rules on State aid, the advantages gained from the subordination need to be passed on in full to the Final Recipients in the form of lower pricing. The Applicant shall present the methodology describing how these advantages will be transferred.

Eligible Financial Intermediaries will have the possibility to apply for an EIB financing to fulfil their co-financing obligations subject to the EIB’s internal approvals.

1.6 Project pipeline/portfolio definition
Applicants shall be responsible for the identification and evaluation of projects. Each Applicant should demonstrate the robustness of the project pipeline and compliance of all projects with the objectives as presented in the Investment Strategy with Business Plan.

In addition, Applicants that are able to provide evidence of a pipeline of projects and specific details of “early win” projects will provide a greater degree of comfort to the EIB that they are in a position to invest in projects within the relatively tight timescales envisaged for investment. Therefore, when possible, Applicants are invited to present in their EoIs details of specific projects already identified, even if it is recognised that some project details may be less developed (or provided on an indicative basis) than others and that the project pipeline/financial plan will need to be subject to flexibility and further development/agreement going forward. Provision for this will be made in the Operational Agreement to be signed with the Financial Intermediary.

The portfolio of projects should contain projects that the Applicant undertakes to finance, unless circumstances of a nature that could not have been predicted or were unknown at the time of preparation of the EoI occur. In such cases, the possibility of substituting projects contained in the Business Plan with other projects of a similar nature, including similar balance between financial and socio-economic benefits, will be permitted.

In case the Applicant has not established the project pipeline at the time the EoI is submitted, it will present a strategy to develop a robust pipeline, including its timeline.

1.7 Marketing of the instrument

This section should briefly describe a strategy for making the FI and its benefits known to its target market. Final Recipients should be made aware that financial assistance is available to them and then be informed that the assistance they receive is co-financed from the ERDF under ROP K-PV 2014-2020. If the MA and/or the EIB make(s) additional efforts to inform the general public about the FI, these should be described in this section together with potential synergies between the proposed marketing strategy and other information efforts.

1.8 Selection methodology for Final Recipients

This section should take into account the elements mentioned in the ‘target market’, ‘project pipeline/portfolio definition’ and ‘risk management’ parts and set forward a selection methodology that addresses the objectives and risks already identified. Selection should be in line with the requirements of the CPR and the CDR, in particular Article 6(1)(a) of the CDR, as well as applicable State aid rules and public procurement rules where relevant. The Applicant should describe in this section how it intends to check and control eligibility criteria of the Investment Strategy with Business Plan when selecting the Final Recipients.

In case the portfolio of projects is provided by the Applicant, it shall not be interpreted as an exhaustive list. It is expected that the Financial Intermediary will continue to look for other projects not identified at a time of presenting the EoI. For this aim, the Applicant should describe the methodology for the research and evaluation of all projects, including future ones. The methodology should contain provisions assuring that all projects will comply with the objectives as presented in Investment Strategy with Business Plan (including quantitative outputs) and relevant ESIF Regulations.

In particular, the methodology shall detail the means and the key steps applied to ensure the selected projects reach the necessary level of advancement for investment under the FI financing. Such methodology shall cater for the different stages of development of each project, including projects which are only at conceptual stage.
Based on the Applicant’s knowledge of the regional / local market and regional / local needs, the Applicant shall also present rules of cooperation with and support to be provided to regional / local authorities as regards identification and financing of projects. To this end, Applicants shall specify the strategy to ensure adequate regional / local presence in the relevant region, in order to develop and maintain appropriate contacts and relationships with relevant authorities (mainly the MA and relevant authorities) as well as regional / local stakeholders and project delivery bodies (either public or public-private involved at project level).

Finally, Applicants should also include a full description of their internal scoring system used for the credit risk assessment of each project and for the pricing of the operations, if applicable.

1.9 Exit Strategy

The Applicant should describe its proposal for exit strategy and, where necessary, early withdrawal procedures from Final Recipients’ projects, along with their trigger conditions.

Based on exits, resources will be paid back including capital repayments with gains and other earnings or yields, such as interest or any other income generated by investments, which are attributable to the support from the ERDF under ROP K-PV 2014-2020.

1.10 Reuse provisions

The Applicant should describe its strategy to reuse the resources paid back to the FI from investments in Final Recipients but not yet repaid to the FoF to finance further projects until the end of the Eligibility Period in line with Article 44 of the CPR.

1.11 State aid

Under FI, no state aid is expected at the level of selected Financial Intermediary, subject to the following requirements:

a) remuneration of the Financial Intermediary corresponds to the market remuneration in similar situations, which is the case when Financial Intermediaries are selected in an open, transparent, non-discriminatory and objective procedure, or when the remuneration is consistent with the provisions of Articles 12 and 13 of the CDR, and no other benefits are granted by public authorities;

b) risks and gains are shared on pari passu terms between public and private investors;

c) financial benefits from the ROP K-PV 2014-2020 contribution are transferred entirely to Final Recipients in the form of preferential interest rates; and

d) if this is the case, the advantages gained from the subordination of the ROP K-P 2014-2020 contribution to the co-financing are passed on in full to the Final Recipients in the form of lower pricing.

At the level of Final Recipients, state aid will be granted pursuant to relevant Applicable Laws related to granting State aid and described in the Investment Strategy with Business Plan.

The Applicant should describe how it will be ensured that State aid rules will be adhered to during the FI implementation.

The aid received by the Final Recipients in the form of preferential loans shall be subject to de minimis rule, including cumulation requirements. In case the Final Recipient does not satisfy the de minimis requirements, it shall not be eligible for the participation in the scheme and obtainment of a respective
loan, unless the aid is compliant with Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (“General Block Exemption Regulation”).

II. Management Team and experience

The Applicant should outline the roles and responsibilities of the management team and detail how specific departments or individuals fit their proposed roles.

It should describe how the management team fits into the broader organisation of the Financial Intermediary and indicate the experts and departments that would contribute to both the FI and other activities of the Financial Intermediary such as the risk management or legal departments. Where relevant, it should also show how conflicts of interest are avoided.

The Applicant shall indicate a team of experts with experience in relevant fields, which shall be established and is available at the time of signature of the Operational Agreement in order to complete the project’s objectives. It will also detail any capacity building activities for existing staff or delegation of knowledge-intensive tasks to sub-contractors. It should further outline the roles and responsibilities of internal teams such as project selection team/risk management team or internal control bodies. Key experts should be nominated. Short CVs for the key experts, including a Project Manager, as well as other key persons (responsible among others for reporting, controlling, risk analysis activities, etc.) should be provided.

The Applicant shall describe relevant experience in identifying and extending loans from own or other funds for similar types of projects in the market. It should also demonstrate adequacy and relevance of the experience in the implementation of similar financial instruments.

The Applicant should demonstrate that the implementation of FI will be additional to its current activity.

III. Governance and implementation

The Applicant shall describe the management, administration and accounting procedures, which will be applied in the exercise of the function of the Financial Intermediary. The Applicant should indicate the roles and responsibilities for implementation of the FI, including any stakeholder representation.

The governance provisions shall also define the mechanisms to guarantee the compliance of projects with eligibility criteria under the Investment Strategy with Business Plan, Applicable Laws, and obtaining all relevant authorisations and licences relevant thereto, as well as the fulfilment of all obligations arising from the ERDF financing according to Applicable Laws.

For that reason, Applicants should pay particular attention to the procedures to be adopted to ensure the compliance of projects with rules on Eligible Expenditure and technical / economic quality requirements. Applicants shall propose the structure and operation of the Financial Intermediary management system, which should ensure a proper appraisal of the projects.

3.1. Legal and Ownership structure

The Applicant should indicate and describe its legal and ownership structure of the Financial Intermediary, which shall be in line with relevant ESIF Regulations, relevant roles and responsibilities
for the implementation of the FI, including any stakeholder representation. The Applicant should also present its legal and ownership structure as well as describe its corporate governance including adherence to regulatory requirements and best banking practices; in addition, the Applicant should describe the responsibilities of the management (and if applicable advisory) bodies, together with their composition and method of appointment, and decision procedures such as the organisation of meetings, voting procedure, acceptance threshold and veto rights.

The role of Financial Intermediaries may be performed by loan funds and banks, among others. They should be authorised to conduct loan operations in the supported areas.

The Applicant shall identify the manager of the Financial Intermediary who will be either the Applicant itself or a member of its group or a member of the consortium or their respective groups.

The Applicant shall provide a copy of the documents regulating its economic activities (by-laws, founding documents, licences, patents, etc.) evidencing the provision of financial services and its status as a financial institution and its entitlement to carry out the tasks foreseen under EU and national law.

3.2. Risk Management, Internal control systems, and Organizational capacity:

The Applicant shall demonstrate its organisational capacity which shall, in line with the applicable regulatory framework and best banking practices, include (i) description of its risk governance and demonstration of adherence with regulatory requirements and best banking practices (ii) an internal control system in conformity with international standards; (iii) the use of an accounting system providing accurate, complete and reliable information in a timely manner, also taking into consideration the necessary monitoring of the Operational Programme and EIB requirements (iv) risk management framework including but not limited to risk assessment, internal risk models, internal credit risk guidelines and policies, other internal risk guidelines, loan approval procedures, collateral requirements, early warning systems, limits framework, credit risk monitoring practices and procedures, management of arrears and non-performing loans (incl. recovery track record and capabilities); and (v) a governance structure which integrates internal control and risk management procedures. In addition, the Applicant shall demonstrate how it intends to manage the investment risks, including the risk of Irregularities, when implementing the FI taking into account that addressing market gaps may imply a higher risk than the market is ready to take. The proposals with respect to risk management should generally be based on the experience of the Applicant with similar instruments. This section should address typical risks and how to address these, recovery procedures (including in respect of amounts affected by Irregularities), typical default rates and forecasts of losses, risk mitigation measures, diversification measures and monitoring procedures.

3.3. Economic and financial capacity

The Applicant shall present evidence to the satisfaction of EIB of its economic and financial capacity, and its entitlement to carry out the tasks foreseen herein and in its Business Plan under EU and national law. Among key evidence that can be submitted are (a) banking licence and/or proof of being a financial institution under the laws of EU member state, with a sound governance structure allowing for a large-scale lending programme in line with best banking practice; (b) financial statements for the past 3 years, demonstrating sound financial management to the satisfaction of EIB; (c) documents regulating its economic activities (by-laws, founding documents, licences, etc.); or (d) external rating of at least BBB- at all times as assigned by Standard and Poor's Rating Group and/or Fitch Ratings Limited and/or Baa3 as assigned by Moody’s Investors Service.
Applicants which are not rated or are rated below the minimum, it shall propose adequate measures to mitigate the risks related to probability of default and thus a potential failure to fulfil the contractual obligations, subject to approval of the Investment Board. The Applicant should also demonstrate its competitive position within the relevant market and its market share.

3.4. Conflicts of interest

The Applicant should describe how it will ensure the impartiality of the selection process for Final Recipients and the management of the funds allocated to it. It should identify any existing conflicts of interest and describe conflict of interest procedures. In cases where the body implementing the financial instrument allocates its own financial resources to the financial instrument or shares the risk, the Applicant shall indicate the proposed measures to align interests and to mitigate possible conflicts of interest.

3.5. Treasury Management

The Applicant should specify how idle funds are managed. To this end, the Applicant shall present the level of the interest rate offered on available funds, not yet invested in projects. The interest rate should be proposed based on WIBOR\(^6\). Negative interest will not be considered to be an eligible expense.

3.6. Monitoring and Reporting procedures

The Applicant should describe procedures to monitor and control the implementation of projects by the Final Recipients. It should also prove to fulfil the requirement to report periodically (on monthly and quarterly bases, and ad-hoc subject to needs) to the FoF on the progress in implementation of the Financial Instrument, the scope and standard procedures of which are to be decided by the EIB, the MA, and other authorised entities. Depending on further requirements from the MA, it is envisaged that the scope of reporting will include at least the following elements:

- Details on the projects, including Priority Axes, Measures, categories of intervention, project amounts and financing sources (also co-financing), description of the project,
- Details on the loan contract, including signature dates, amounts’ financing sources (also co-financing), interest and maturity details,
- A summary of the disbursements to Final Recipients (dates, amounts) and their source (also co-financing),
- Details on amounts of repaid principal and interest by Final Recipients,
- Amounts of outstanding principal and interest; including the fair value of each projects,
- Details on loan due dates and amounts overdue,
- The total values of recovered amounts from Final Recipients,
- Details on the Final Recipient, including category, address and NACE code.

IV. Terms and conditions

4.1. Management Fee

The FoF will compensate a Financial Intermediary for its operations in the form of a management fee.

---

\(^6\) Entities that do not conduct deposit-related activity may deposit entrusted funds in the third bank, subject to EIB’s approval.
The management fee shall include all fees and expenses to be incurred by the Financial Intermediary in relation to administration services and other auxiliary activities provided. If the Financial Intermediary foresees a combination of its management fee proposal with remuneration received also from projects this must be clearly stipulated in its EoI. However, should this not be the case, the Financial Intermediary shall not have the right to request remuneration from projects with respect to the same. In any case, it shall not be allowed to receive the management fee and charge arrangement or other fees to Final Recipients in relation to parts of loans financed by the ERDF under ROP K-PV 2014-2020.

The required level of a management fee payable to the Financial Intermediary by the FoF shall be indicated in the Business Plan submitted by each Applicant. The management fee may not exceed, on an annual average, the thresholds specified in Article 13 of the CDR. The management fee shall be calculated as a percentage of the funds contributed from the FoF to the Financial Intermediary. The management fee shall not be calculated on the interest earned by a Financial Intermediary on any deposits of funds contributed to the Financial Intermediary by the FoF and not yet invested in projects or returned to the Financial Intermediary from investments in projects and not yet re-invested.

The Applicant must propose the methodology to calculate the management fee linked to the following components:

1. the disbursement of contributions provided by the ERDF under ROP K-PV 2014-2020;
2. the resources paid back from investments;
3. the quality of measures accompanying the investment before and after the investment decision to maximise its impact; and
4. the contribution of the FI to the objectives and outputs of the Investment Strategy with Business Plan.

The EIB is expecting management fees to be within the following thresholds specified in Article 13 of the CDR:

1. a base remuneration - 0,5 % per annum of the ERDF contributions under ROP K-PV 2014-2020 paid to the FI, calculated pro rata temporis from the date of effective payment to the FI until the end of the Eligibility Period, the repayment to the MA, or to the FoF, or the date of winding up, whichever is earlier; and
2. a performance-based remuneration - 1 % per annum of the ERDF contributions under ROP K-PV 2014-2020 paid to Final Recipients in the form of loans, as well as of resources re-invested which are attributable to the ERDF contributions under ROP K-PV 2014-2020 (subject to the prior approval of the MA), which have yet to be paid back to the financial instrument, calculated pro rata temporis from the date of payment to the Final Recipient until repayment of the investment, the end of the recovery procedure in the case of defaults or the end of the Eligibility Period, whichever is earlier.

The aggregate management fee over the Eligibility Period may not exceed 8% of the total amount of the ERDF contributions under ROP K-PV 2014-2020 paid to the FI.

In any case, Applicants are expected to propose a management fee that incentivises them, namely the FI manager, to invest in projects in a timely and efficient manner and maximise output targets. To this end, it is envisaged that the management fees will be proportionally reduced if any of the cases described under points 14, 16 and 17 of Section 5.2 occur.
The amount equal to the management fee shall be each time debited by a Financial Intermediary (when due) from the amounts held by a Financial Intermediary. The detailed provisions concerning the management fee shall be established in the Operational Agreement.

4.2. Winding up provisions

The Applicant should briefly describe the proposal for winding-up procedures for the FI, including conditions for returning any resources attributable to the ERDF contribution under ROP K-PV 2014-2020 to the FoF, the MA, or to another designated competent public authority. This would include returns from the original investment plus any interest or other gains.

Winding-up may take place before or after the end of the Eligibility Period and the repayment of the contributions to the MA or to the FoF. If before, the date of winding-up is used as a reference for the pro rata temporis calculation of the thresholds for management fees of the FoF and the base remuneration of the Financial Intermediary.

Certain aspects of the Business Plan (which shall not include management fees) may be developed by mutual consent during the negotiation period for the Operational Agreement.

The Applicant should indicate any other elements relevant for the evaluation of the Business Plan in accordance with the Assessment Criteria.

9. Conditions regarding joint offers and subcontracting

i. Joint offers in general. Groups of economic operators, including consortia and temporary associations (the “Groups”) are authorised to submit EoIs (“Joint Offers”). In this case, each member of the Group shall fulfil the requirements and accept the terms and conditions set out in this Call for Expression of Interest. The members of the Group shall designate one member as Group Leader with full authority to bind the Group and each of its members. The Group Leader shall act as a single point of contact with EIB in connection with the present procurement procedure. While Groups are not required to have a specific legal form in order to submit an EoI, the Group selected may be required to adopt a given legal form after it has been selected and before an Operational Agreement is signed.

ii. Documentation and information to be provided. In the section of the EoI related to the exclusion and administrative criteria situation, the Group shall clearly specify the role and tasks of each member of the Group (see Annex 3). In addition, each member of the Group must provide the following:

   a. documentation related to its exclusion situation;
   b. documentation related to the administrative criteria;
   c. a letter of intent, designating the Group Leader and ensuring the proper execution of the respective share of tasks if the Group is awarded the contract by using the declaration contained in Appendix 2 of Annex 3.

iii. Joint Offers submitted by Groups will be assessed as follows:

   a. the exclusion criteria and the administrative criteria will be assessed in relation to each member of the Group individually;
   b. the assessment criteria will be assessed in relation to the Offer/EoI.
   c. the compliance due diligence assessment in accordance with section 13.
Since all members of the Group will be jointly and severally liable towards EIB for the performance of the Agreement, statements included in the joint offer saying, for instance:

- that each member of the Group will be responsible only for a specific part of the Operational Agreement, or
- that a separate Operational Agreement should be signed with each member of the Group if the joint offer is successful,

are incompatible with the principle of joint and several liability. EIB will disregard any such statement contained in a Joint Offer/EoI, and it reserves the right to reject such Offers without further evaluation, on the grounds that they do not comply with these requirements.

If any member of the joint offer fails either the exclusion or administrative criteria, the Applicant will be excluded from further evaluation in the competition.

iv. Joint offer during the contract implementation. All members of the Group shall be jointly and severally liable towards EIB for the performance of the Agreement and they shall comply with the terms and conditions of the Operational Agreement and ensure the proper execution of their respective share of the services.

The Group Leader – duly authorised by the other members of the Group – shall act as a single point of contact with EIB in connection with the services to be provided under the Operational Agreement; it shall co-ordinate the provision of the services by the Group members to EIB; it shall guarantee a proper administration of the contract.

The composition of the Group and the allocation of tasks among the members of the Group shall not be altered without prior written information to the EIB.

v. Subcontracting in general. The Applicants may subcontract part of the tasks specified in this Call for Expressions of Interest to other economic operators, as long as the services are provided in accordance with this document but with the exception of the following critical tasks, which cannot be subcontracted as these are fundamentally linked with the management of the mandator’s funds and are closely linked with the quality of the Applicant both in terms of its capacity to underwrite/service the loans and its capacity to apply adequate risk management practices. (the “Core Activities”):

- activities relating to lending (indicatively selection, appraisal, financing / underwriting and servicing of loans);
- activities relating to risk management framework (including but not limited to risk assessment, internal risk models, internal credit risk guidelines and policies, other internal risk guidelines, loan approval procedures, collateral requirements, early warning systems, limits framework, credit risk monitoring practices and procedures).

By way of exception, the Applicants may subcontract tasks related to the recovery process, (despite the fact that they would otherwise be considered as Core Activities). Without prejudice to the other provisions of the EoI relating to subcontractors, in the case of subcontracting of activities relating to the recovery process, the Applicant should provide:

- a description of how this process will be managed; and
- all relevant information requested in the EoI with respect to the Applicant as part of the Business Plan also for the relevant subcontractor (including recovery track record and capabilities).
In case of subcontracting the Applicants shall clearly state in the section of the EoI related to the Applicant’s exclusion situation and capacity as per Annex 3 and its Appendices:

a. which tasks it intends to subcontract and clearly indicate the roles, activities and responsibilities of the subcontractor(s);

b. specify the volume or proportion of the activities likely to be subcontracted.

vi. **Assessment of subcontractors.** In case of subcontracting, the EoI will be assessed as follows:

a. the exclusion criteria and the administrative criteria will be assessed in relation to each proposed subcontractor individually;

b. the assessment criteria will be considered on a consolidated basis – Applicant plus subcontractor(s) – and will be evaluated in relation to the Offer/EoI;

c. the compliance due diligence assessment in accordance with section 13.

Where an Applicant is relying on the capacity of subcontractor(s), such entities must (i) be proposed to perform those services for which these capacities are required and (ii) submit a letter of undertaking in the EoI to that effect.

N.B. If a subcontractor does not fulfil one of the exclusion or administrative criteria, the Bank will require that the Applicant replaces that subcontractor. Failure to provide such replacement to the full satisfaction of the Bank within a deadline specified by the Bank shall result in the elimination of the Applicant.

vii. **Subcontracting during the contract implementation.** Once the Operational Agreement has entered into force, the successful Applicant shall retain full liability towards EIB for the performance of the Operational Agreement as a whole. EIB will not have any direct legal commitment with the subcontractor(s). During the execution of the Operational Agreement, the Selected Applicant will need EIB’s express authorisation to replace a subcontractor with another subcontractor and/or to subcontract tasks for which subcontracting was not envisaged in the original EoI.

10. **Exclusion Criteria**

All Applicants shall provide the declaration in Annex 5 to the EoI (“Declaration of Honour on Exclusion Criteria and on Absence of Conflict of Interest”) regarding the exclusion criteria and the absence of conflict of interest, duly signed and dated by an authorised representative, stating that they are not in one of the situations listed in Annex 5 to the EoI.

All Applicants shall provide a completed Wolfsberg Questionnaire⁷, duly signed and dated by an authorised representative, copies of internal policies and procedures regarding AML-CFT, sanctions compliance, Anti-Fraud/Corruption and further information, if requested by the EIB.

The selected Financial Intermediary shall provide the documents mentioned as supporting evidence in Annex 5 to the EoI before signature of the Operational Agreement and within the deadline specified by the EIB.

11. **Administrative Criteria**

---

⁷ This document may be accessed on: https://www.wolfsberg-principles.com/wolfsbergcb.
Applications not excluded in accordance with the Exclusion Criteria, will be assessed on the basis of the following Administrative Criteria:

- The EoI includes a completed table in the form attached as Annex 2 and all supporting documents are provided;
- The declarations indicated in Annexes 3 and 4 are completed, supported by the necessary documentary evidence, and is acceptable to the EIB.

12. Assessment Criteria

EoIs which have not been excluded on the basis of the Exclusion Criteria and which meet the Administrative Criteria will be evaluated on the basis of the Assessment Criteria, as described in the table below.

In case the score received in any of the below Assessment Criteria is equal to 0, such EoI will be excluded.

Total maximum points 100
Note 1 – Scoring of items I – VI and VIII - IX

Score of items from I to VI and from VIII to IX will be given on the basis of a qualitative analysis.

Note 2 – Scoring of items VII and X

All co-financing proposals under item VII will be assessed individually and the highest proposal will be compared to each individual proposal (i.e. Proposal of Applicant being measured/Highest proposal of all Applicants), resulting to the best proposal (i.e. highest value) achieving a rating of 1. Inferior proposals will hence score proportionately lower than 1. The maximum number of points under this item (i.e. 15) will be awarded to the proposal with a rating of 1. The number of points for inferior proposals will be awarded proportionally.

\[
Score_{\text{for Applicant } X} = \frac{\text{Proposal of Applicant } X}{\text{Highest Proposal}} \times [\text{applicable highest score}]
\]

All management fee proposals under item X will be assessed individually and the lowest proposal will be compared to each individual proposal (i.e. Lowest proposal of all Applicants/Proposal of Applicant being measured), resulting to the best proposal (i.e. lowest value) achieving a rating of 1. Inferior proposals will hence score proportionately lower than 1. The maximum number of points under this item (i.e. 10) will be awarded to the proposal with a rating of 1. The number of points for inferior proposals will be awarded proportionally.

\[
Score_{\text{for Applicant } X} = \frac{\text{Lowest Proposal}}{\text{Proposal of Applicant } X} \times [\text{applicable highest score}]
\]

The EIB reserves the right to verify the correctness of the information received. The EIB may, on its own initiative, inform applicants of any error, inaccuracy, omission or any other error in their application. If clarification is required or if obvious clerical errors in the application need to be corrected, the EIB may request the applicant to provide clarifications and/or additional information provided the terms of the submitted EoI documents are not modified as a result.

13. Compliance due diligence assessment

The EIB will carry out a compliance due diligence assessment of the Selected Applicant’ (and their subcontractors’, where applicable, with regard to relevant activities) suitability to manage the Financial Instrument in terms of their risk management framework, systems, policies and procedures, financial standing, governance and origination capacity, as described in the EoI taking into account the specific market.

In case of joint offer, the above compliance due diligence assessment will be conducted in relation to each member of the Group individually. The assessment will be conducted on a pass/fail basis. If a negative assessment results in respect of the Selected Applicant (whether sole or joint offer), the Selected Applicant will no longer be included in the EIB recommendation to the Investment Board. In the case of a subcontractor, the Bank may require that the Selected Applicant replaces that subcontractor with another having equal or greater quality - failure to provide such replacement to the full satisfaction of the Bank shall result in the elimination of the Selected Applicant.
14. Privacy Statement

During a call for expression of interest the EIB may get access to certain personal data (information related to an identified or identifiable natural person). The purpose of this Privacy statement is to provide information about the collection and use of personal data at EIB. By applying to this Call for Expression of Interest, the Applicant hereby provides consent to have the personal data processed in accordance with this Section.

i. What is the purpose of the collection of personal data?

Upon reception of your EoI, your personal data is collected and further processed for the purpose of a call procedure (e.g. the selection of experts and financial intermediaries, verifying the representation right, contact details etc., and the evaluation) and the management of the resulting contracts. Personal data collected and further processed concerns the staff employed by the Applicant, including consortium partners and subcontractors participating in call procedures and entering into a contractual relation with the EIB.

ii. What is the legal basis for processing personal data?

Personal data are processed by the EIB in accordance with Regulation (EU) 2018/1725 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC. The legal basis for processing of personal data in the course of the implementation of financial instruments, is Article 38 (4)(b)(i) of the CPR of Commission Regulation 1303/2013.

iii. What personal data is collected?

Personal data are inter alia:

- Personal details (e.g. name, address, ID number, passport number, e-mail address, phone/fax numbers, date of birth);
- Professional details (e.g. function, company department, e-mail address, phone/fax numbers);
- Education and training details (CV’s or short descriptions (pen portraits) of team members);
- Information required in relation to the evaluation of the exclusion criteria such as certificates for social security contributions and taxes paid, extracts from judicial records, etc.;
- VAT registration number;
- Bank details.

iv. Who has access to your personal data and to whom is it disclosed?

- EIB’s Staff of the Procurement and Purchasing Division;
- EIB’s Staff of the Operations Directorate;
- EIB’s Staff of the Legal Directorate;
- Relevant senior management of the requesting EIB Department and contract managers;
- External legal advisers;
- Managing Authority;
- Investment Board;
- Only in special situations to:
  - EIB’s Office of the Chief Compliance Officer;
- EIB Internal Audit;
- EIB legal services;
- EIB’s Inspectorate General;
- European Court of Auditors;
- European Data Protection Supervisor.

Or other authorities EIB is obliged to provide such personal data under applicable legal frameworks.

v. Actors in the data collection
- Controller: EIB Corporate Services Directorate
- Processor: EIB Procurement and Purchasing Division

vi. How does the EIB process personal data?
The data collected is processed either manually or electronically.

- Manual processing: hard copies of the submitted offers (which may contain personal data, as specified above) are stored unopened until the opening session. Then, they are made available to the duly appointed members of the opening committee. Upon termination of the evaluation process, the “hard” originals of the offers together with electronic copies in the form of CDs/USB sticks are stored in EIB Central Archives.
- Electronic processing: personal data included within offers submitted to EIB will be processed electronically e.g. storage within EIB electronic document management system, transmission via electronic means, etc.

vii. How do we protect and safeguard your information?
Data are stored:
- Electronically in specific areas of EIB electronic document management system (Livelink) with restricted access rights;
- Paper files are stored in archives, locked and only accessible to EIB’s Central Archiving team.
  In both cases, access and control rights to the files are limited and granted only on a need-to-know basis.

viii. How long is your personal data kept?
The data of the Selected Applicant shall be retained for the duration of the Operational Agreement between the EIB and the Selected Applicant, plus two years in the central archives, unless these are needed in the context of litigation or claims extending beyond this duration. The data of unsuccessful Applicants shall be retained for four years, unless these are needed in the context of litigation or claims extending beyond this duration.

After the periods mentioned above have elapsed, the files are destroyed.

ix. What are your rights and how can you exercise them?
You as a Data Subject shall have the right of access to your personal data and the right to request to rectify or to erase any such data that is inaccurate or incomplete. You also have the right to object to processing and the right to request a restriction of the processing. You can exercise these rights by contacting the processor (acting on behalf of the controller) CS/IMP/PROCUR division (CS-procurement@eib.org) or EIB’s Data Protection Officer (p.donos@eib.org or dataprotectionofficer@eib.org). In addition, you also have the right to have recourse at any time to the European Data Protection Supervisor edps@edps.europa.eu.

   If yes, please provide details

(k) has advised the EIB or otherwise been involved in the preparation of the selection procedure
   If yes, please provide details.

VI - REMEDIAL MEASURES

If the person declares one of the situations of exclusion listed above, it must indicate measures it has taken to remedy the exclusion situation, thus demonstrating its reliability. This may include e.g. technical, organisational and personnel measures to prevent further occurrence, compensation of damage or payment of fines. The relevant documentary evidence which illustrates the remedial measures taken must be provided in annex to this declaration. This does not apply for situations referred in section I(h) of this declaration.

Regarding paragraph (h) of section II of this Declaration (Sanctions - Natural Persons), the person may propose as a remedial measure that the natural person(s) concerned shall not be involved in the proposed contract.

VII – EXCLUSION EFFECT

i. The contracting authority shall exclude the person from participation in a procurement procedure:

   • if the contracting authority has established by verification or is otherwise aware that the person is in one of the situations listed in sections I to V of this Declaration, and/or
   • if the person would find itself in a situation of conflict of interest due to its participation or has advised the contracting authority or has otherwise been involved in the preparation of the procurement procedure, as per section VII of this Declaration.

ii. Regarding paragraph (h) of section I of this Declaration (Sanctions), the contracting authority shall exclude the person from participation in a procurement procedure:

   • if the contracting authority has established by verification or is otherwise aware that the person is the target of a sanction or restrictive measure (imposed or administered by the European Union or by the United States of America, and
   • in the case of US Sanctions, (1) the proposed contract for which the person is applying has a US Nexus,14 or (2) the sanction or restrictive measure in question is not in conflict with EU Regulation (EC) 2271/96 (“Blocking Regulation”) as amended from time to time.

iii. Regarding paragraph (h) of section II of this Declaration (Sanctions - Natural Persons), the contracting authority shall exclude the person from participation in a procurement procedure if:

   • the conditions under sub-section (ii) above apply to the natural person(s) concerned, and
   • the person has not confirmed, to the full satisfaction of the contracting authority, that the natural person(s) concerned shall not be involved in the proposed contract.

VIII – EVIDENCE UPON REQUEST

Upon request and within the time limit set by the contracting authority the person must provide information on the persons that are members of the administrative, management or supervisory body.

14 “US Nexus” means where there is any US involvement or connection, including (without limitation): (i) any US dollar denominated transaction; (ii) any payment in any currency that is cleared through the US financial system, including foreign branches of US banks, and US branches, agency or representative offices or US accounts of non-US financial institutions; and (iii) any US Person, including US financial institutions, foreign branches of US banks, and US branches, agency or representative offices or US accounts of non-US financial institutions.

“US Person” means: (i) any US citizen, US permanent resident alien or green card holder, wherever they are located or employed; (ii) any entity organised under the laws of the US or any jurisdiction within the US, including foreign branches of such an entity; and (iii) any individual or entity located in the US.
It must also provide the following evidence concerning the person itself and concerning the natural or legal persons which assume unlimited liability for the debt of the person:

For situations described in (a), (c), (d) or (f), production of a recent extract from the judicial record is required or, failing that, an equivalent document recently issued by a judicial or administrative authority in the country of establishment of the person showing that those requirements are satisfied.

For the situation described in point (b), production of recent certificates issued by the competent authorities of the State concerned are required. These documents must provide evidence covering all taxes and social security contributions for which the person is liable, including for example, VAT, income tax (natural persons only), company tax (legal persons only) and social security contributions.

Where any document described above is not issued in the country concerned, it may be replaced by a sworn statement made before a judicial authority or notary or, failing that, a solemn statement made before an administrative authority or a qualified professional body in its country of establishment.

The person is not required to submit the evidence if it has already been submitted for another selection procedure. The documents must have been issued no more than one year before the date of their request by the contracting authority and must still be valid at that date.

The signatory declares that the person has already provided the documentary evidence for a previous procedure and confirms that there has been no change in its situation.

The above-mentioned person may be subject to rejection from this procedure if any of the declarations or information provided as a condition for participating in this procedure prove to be false.
