

Call for Expression of Interest: to select financial intermediaries that will receive resources from the Fund of Funds Mazowieckie to implement a financial instrument in the Mazowieckie Voivodeship/Poland

Ref.: PC-1406

1. Introduction

As part of the Regional Operational Programme for the Mazowieckie Voivodeship for the programming period 2014-2020 (“**ROP MV 2014-2020**”), with the purpose of tackling the market failures identified by the ex-ante assessment finalised in May 2015 (“**Ex-ante Assessment**”), the Board of Mazowieckie Voivodeship, acting as the ROP MV 2014-2020 Managing Authority (“**Managing Authority** or “**MA**”), has agreed to dedicate resources to the implementation of a Fund of Funds (“**Fund of Funds**” or “**FoF**”) managed by the European Investment Bank (“**EIB**”), in accordance with Article 38 (4)(b)(i) of the CPR and the provisions of a funding agreement entered into on 9 December 2016 between the Managing Authority and the EIB (“**Funding Agreement**” or “**FA**”).

Relevant rules for implementing the Financial Instrument (as defined below) are primarily stipulated in the CPR, the CDR, the Implementing Regulation, the ERDF Regulation (respectively as defined below), and applicable national law and regulations.

This Call for Expression of Interest is addressed to bodies or firms, whether public or private, which are interested in receiving resources from the Fund of Funds for the implementation of the Financial Instrument (hereinafter “**FI**”) in the Mazowieckie Voivodeship. Such activities shall be carried out in accordance with the agreement(s) to be entered into by the EIB acting as manager of the FoF, and the selected Applicant(s). The funds shall be transferred from the FoF to the selected Financial Intermediary(-ies) for a specific period of time and purpose defined in the Operational Agreement.

2. Definitions and Interpretation

In this Call for Expression of Interest, capitalised terms and expressions shall have the meaning attributed to them below, unless otherwise defined above or the context requires otherwise:

Administrative Criteria	means the administrative criteria listed in Section 10;

For the purposes of the selection process, all advisors of the EIB are acting exclusively as the advisors to the EIB and will not be responsible or owe any duty of care to anyone other than the EIB in respect of the selection process.

This Call for Expression of Interest does not represent a public procurement procedure in the sense of Directives 2004/18/EC or 2014/24/EU.

CONFLICTS OF INTEREST

The EIB requires all actual or potential conflicts of interest to be resolved to the EIB's satisfaction prior to the delivery of an Applicant's submission. Failure to declare such conflicts and/or failure to address such conflicts to the reasonable satisfaction of the EIB could result in an Applicant being disqualified at the sole discretion of the EIB.

CANVASSING AND NON-COLLUSION

The EIB reserves the right to disqualify (without prejudice to any other civil remedies available to the EIB and without prejudice to any criminal liability which such conduct by an Applicant or consortium member (as the case may be) may attract) any Applicant or consortium member who, in connection with this document:

- (i) offers any inducement, fee or reward to any Investment Board member, employee or officer of the EIB;
- (ii) contacts any Investment Board member, employee or officer of the EIB about any aspect of this document in a manner not permitted by this document;
- (iii) fixes or adjusts the amount of his EoI by or in accordance with any agreement or arrangement with any other Applicant or consortium member or supply chain member of any other Applicant (other than its own consortium members or supply chain);
- (iv) enters into any agreement or arrangement with any other Applicant or potential applicant or consortium member of any other Applicant or potential applicant to the effect that it shall refrain from making a submission or as to the amount of any submission;
- (v) causes or induces any person to enter such agreement as is mentioned above or to inform the Applicant or a consortium member of the Applicant of the amount or approximate amount of any rival submission;
- (vi) canvasses any person in connection with this document who is not one of its own consortium members or one of its own team;
- (vii) offers or agrees to pay or give or does pay or give any sum of money, inducement or valuable consideration directly or indirectly to any person for doing or having done or causing or having caused to be done in relation to any other submission or proposed submission; or
- (viii) communicates to any person other than the EIB the amount or approximate amount of his proposed submission (except where such disclosure is made in confidence in order to obtain quotations necessary for the preparation of a submission).

INTELLECTUAL PROPERTY

The copyright in this document is vested in the EIB.

This document may not be reproduced, copied or stored in any medium without the prior written consent of the EIB except in relation to the preparation of a submission.

All documentation supplied by the EIB in relation to this Financial Intermediary selection process is and shall remain the property of the EIB and must be returned on demand, without any copies being retained. Applicants are not authorised to copy, reproduce, or distribute such documents at any time except as is necessary to produce a submission.

PUBLICITY

Applicants shall not undertake (or permit to be undertaken) at any time, any publicity activity with any section of the media in relation to the Financial Intermediary selection process other than with the prior written agreement of the EIB. Such agreement shall extend to the content of any publicity. In this paragraph the word "media" includes (but without limitation) radio, television, newspapers, trade and specialist press, the internet and email accessible by the public at large and the representatives of such media.

3. Background information

3.1. Financial instruments in the 2014-2020 programming period

Financial Instruments ("FIs") have been used for delivering investments for Structural Funds since the 1994-1999 programming period. In the light of the current economic situation and the increasing scarcity of public resources, FIs are to play an even more prominent role in Cohesion Policy in the years 2014-2020. It is expected that their use will significantly increase in order to help EU Member States to achieve the Europe 2020 Strategy objectives. From this perspective, FIs are seen as a complement to traditional grant-only financing due to their revolving nature and the ability to attract additional capital from financial institutions and other providers (i.e. leverage effect).

More information on the financial instruments in Cohesion Policy can be found at: http://ec.europa.eu/regional_policy/en/funding/financial-instruments/.

3.2. Financial instruments in the Mazowieckie Voivodeship

In the 2007-2013 programming period, the Managing Authority and the EIB established the JESSICA Holding Fund for the Mazowieckie Voivodeship, to which the MA contributed approximately PLN 200 million that has been invested into projects aiming at the revitalisation of urban areas, energy efficiency and the development of energy infrastructure as well as strengthening of cluster initiatives. Given the positive outcome of the JESSICA initiative implementation, the MA decided to continue cooperation with the EIB with the aim to establish a fund of funds as a separate block of finance within the EIB, which may be leveraged using resources from the private sector. As a result the Funding Agreement was signed on 9 December 2016 mandating the EIB the role of the FoF manager.

The selected Financial Intermediaries will provide preferential loans to projects under the following Investment Priorities:

- 1) Investment Priority 4a "Promoting the production and distribution of energy derived from renewable sources", Priority Axis IV "Transition into low-emission economy", Measure 4.1 "Renewable energy sources";
- 2) Investment Priority 4c "Supporting energy efficiency, smart energy management and renewable energy use in public infrastructure, including in public buildings, and in the housing sector", Priority Axis IV "Transition into low-emission economy", Measure 4.2 "Energy efficiency"; and

3) Investment Priority 9b “Providing support for physical, economic and social regeneration of deprived communities in urban and rural areas”, Priority Axis VI “Quality of life”, Measure 6.2 “Revitalization of marginalized areas”.

Projects supported in the above-mentioned areas of support should contribute to the achievement of relevant levels of ROP MV 2014-2020 indicators, as follows:

Indicator name	Unit	Estimated target value (31.12.2023)
4.1 Renewable energy sources		
Additional capacity of renewable energy production	MW	5
Estimated annual decrease of GHG	tonnes of CO ₂ equivalent	6 100
4.2 Energy efficiency		
Number of energy-modernized buildings	item	73
Number of households with improved energy consumption classification	item	5 500
6.2 Revitalization of marginalized areas		
Number of supported infrastructure facilities located in revitalized areas	item	10
Area covered by revitalization	hectares	9
Public or commercial buildings newly built or renovated in urban areas	m ²	12 000

More information on the ROP MV 2014-2020 can be found at: <https://www.funduszedlamazowska.eu/>.

4. The role of the Financial Intermediary

The selected Financial Intermediary(-ies) will act in accordance with all Applicable Laws and with degree of professional care, efficiency, transparency and diligence expected from a professional body experienced in implementing FIs. To this end, the Financial Intermediary(-ies) will be asked to identify and provide loans for the implementation of new projects with the view to achieving the required ROP MV 2014-2020 indicators within the established deadlines and manage the created portfolio in compliance with the objectives of this Call.

For these main purposes, the key tasks envisaged for the Financial Intermediary will broadly be, but not limited, to:

- identify, select in a transparent and objective way without any conflict of interest, and lead the negotiation and structuring of financial investments in financially viable projects which fit within the Investment Strategy of the FoF, eligibility requirements and criteria applicable to the ROP MV 2014-2020, including requirements under Measure 6.2 to support only the projects included in the revitalisation programme as provided for in the “List of revitalisation programmes of the Mazowieckie Voivodeship”², and the agreed Business Plan of the Financial Intermediary;

² This List is available on: <https://www.funduszedlamazowska.eu/rewitalizacja>.

- monitor and control projects to provide the necessary information to the FoF, the MA, the IB and authorised entities in order to comply with the reporting obligations towards the Commission in accordance with Applicable Laws;
- undertake information and publicity measures on the involvement of the FI;
- secure the provision of co-financing (as defined below in Section 8 on the Business Plan, subsection 1.5) at the Financial Intermediary level and/or the project level³ in identified projects to ensure sufficient and appropriate leverage of the funds contributed from the FoF and that sufficient Eligible Expenditure can be declared in those projects in accordance with Applicable Laws;
- actively manage the funds received from the FoF and reuse accrued interest and other gains attributable to these funds as Eligible Expenditure; and
- recommend and manage appropriate exit strategies from project investments.

5. Operational Provisions

5.1. Amounts allocated for the Call of Expression of Interests

It is planned to allocate an initial amount of up to PLN 231,893,482⁴ to the Financial Intermediaries, as follows:

- Lot 1: up to PLN 28,794,350 for investments in the field of renewable energy sources compliant with project types defined under Priority Axis IV, Measure 4.1 of the ROP MV 2014-2020; this amount is expected to be split in the following manner:
 - renewable energy: wind – PLN 7,774,474.50;
 - renewable energy: solar – PLN 20,501,577.20;
 - other renewable energy (including hydroelectric, geothermal and marine energy) and renewable energy integration (including storage, power to gas and renewable hydrogen infrastructure) – PLN 518,298.30.

The above split may be modified subject to the approval of the Investment Board;

- Lot 2: up to PLN 92,351,632 for investments in the field of energy efficiency compliant with project types defined under Priority Axis IV, Measure 4.2 of the ROP MV 2014-2020;
- Lot 3: up to PLN 110,747,500 for investments in the field of urban regeneration compliant with project types defined under Priority Axis VI, Measure 6.2 of the ROP MV 2014-2020, out of which PLN 39,869,100 earmarked for support for housing infrastructure and PLN 70,878,400 earmarked for support for other social infrastructure contributing to regional and local development.

Applicants can submit their EoI for one, two or all Lots, it being understood that they may not apply for part of a Lot, but only for entire Lot(s).

The amounts allocated under each Lot will be disbursed to the selected Financial Intermediary in tranches, each of them, or at least the first tranche, not exceeding 25% of the allocated amount. Disbursements of second and subsequent tranches will be dependent on the use of the preceding tranche as Eligible Expenditure in line with Article 41 of the CPR, as follows:

³ The co-financing at the project level must be provided by third-party private or public entities, documentary evidence of which shall be kept by the Financial Intermediary in line with Articles 1(3) to (6) of the Commission Implementing Regulation (EU) No. 821/2014 of 28 July 2014 (OJ L 223 of 29.7.2014, p. 7).

⁴ Please note that the presented amounts may be decreased by the amount of the management fees paid to the manager of the FoF.

- disbursement of the second tranche shall be made when at least 60% of the amount of the received first tranche has been disbursed as eligible loans and used for management fees;
- disbursement of the third and subsequent tranches shall be made when at least 85 % of the amounts of the received preceding tranches have been disbursed as eligible loans and used for management fees.

The EIB shall have the right to make the final decision on the disbursement of each tranche. The disbursement of tranches is subject to the availability of funds received by the EIB from the MA.

The EIB may decide to propose to increase or decrease its commitment to a particular Financial Intermediary and/or Lot, including based on its performance, at any point in time.

5.2. Indicative Summary Terms of the Operational Agreement

The below indicative summary is an outline of the principal terms and conditions for the Operational Agreement described herein, which are subject to change and non-exhaustive. This section is intended to provide a basis to guide Applicants on what is expected to be contained within the actual Operational Agreement and does not constitute a binding commitment either implicit or explicit on the part of the EIB. A commitment to provide funds under an Operational Agreement will only be made after approval by the Investment Board and the signature of the Operational Agreement.

The Applicant(s), with which Operational Agreement(s) will be eventually signed, shall be required to comply with obligations including, but not limited to, the following:

1. The requirement to comply with Applicable Laws, including EU and national State aid rules and requirements on eligibility of expenses.
2. The requirement to pursue the objectives set out in the Operational Agreement, which shall include an obligation to act in accordance with the Investment Strategy, in particular the obligation to make investments in projects according to the agreed Business Plan.
3. The requirement to notify and indemnify the FoF/MA for any loss caused by failure to comply with the Applicable Laws or with the terms of the Operational Agreement.
4. The requirement to notify and indemnify the FoF/MA for any Irregularity occurring at the level of the Financial Intermediary.
5. The requirement to notify and indemnify the FoF/MA for any Irregularity occurring at the level of the Final Recipients unless the Financial Intermediary can prove that it has exercised due diligence in selecting and pursuing, at its own expense, appropriate contractual and legal measures against the Final Recipients to recover the amounts affected by the Irregularity.
6. The requirement to act with a degree of professional care, efficiency, transparency and diligence expected from a professional body experienced in implementing financial instruments. In particular, the Financial Intermediary will, among others, use all reasonable efforts to assess the creditworthiness of the Final Recipients in line with the standard practice, to collect amounts due and to write off the amounts due only if the collection of the amounts due can no longer be reasonably expected.
7. The requirement that the funds allocated to the Financial Intermediary are kept in a separate interest-bearing bank account (the “Disbursement Account”) with a credit institution situated within the territory of a Member State of the EU to which all disbursements under the Operational Agreement are made. Interest payable on the Disbursement Account shall be based on market pricing. Any interest accruing on the balance standing to the credit of the Disbursement Account

shall be used by the Financial Intermediary in line with Article 43 of the CPR, unless otherwise instructed by the EIB.

8. The requirement that the resources paid back to the FI from investments but not yet repaid to the FoF, unless specified differently, shall be placed into a separate interest-bearing bank account (the "Reserve Account") with a credit institution situated within the territory of a Member State of the EU. Interest payable on the Reserve Account shall be based on market pricing. Any amounts accruing on the balance standing to the credit of the Reserve Account, including any accrued interest thereon, shall be used by the Financial Intermediary until the end of the Eligibility Period in line with Article 44 of the CPR, unless otherwise instructed by the EIB.
9. The requirement that both the Disbursement Account and the Reserve Account are pledged in favour of the EIB.
10. The requirement that the selection of the Final Recipients is transparent, can be justified on objective grounds, does not give rise to any conflict of interest and takes due account of the nature of the FI and the potential financial viability of the projects to be financed.
11. The requirement to provide support to the Final Recipients in a way that ensures that a commensurate level of financial value added is passed on to the Final Recipients.
12. The requirement to provide support to the Final Recipients in a proportionate manner, which has the least distortive effect on competition.
13. Save where otherwise agreed, the requirement to select the Final Recipients benefiting from the support in line with the Financial Intermediary's credit risk policy guidelines applicable to comparable loan products funded through the Financial Intermediary's own resources.
14. The requirement that the funds allocated to the Financial Intermediary are fully contracted with the Final Recipients and the corresponding loan amounts fully disbursed within the period prescribed in the Operational Agreement. The disbursements of funds to the Final Recipients will be made according to the milestones that will be defined in the Operational Agreement. Upon the expiration of the disbursement period, any remaining funds which were not contracted and disbursed and are still held by the Financial Intermediary on the Disbursement Account and/or the Reserve Account, will be returned to the FoF together with any accrued interest thereon. Failure to disburse all the available funds within the period and milestones prescribed in the Operational Agreement shall result in proportional reduction of due management fees in line with Article 12 of the CDR.
15. The requirement to ensure that at any time the proportion of written off amounts due under project loans to amounts disbursed to Final Recipients does not exceed the maximum cap specified in the Operational Agreement.
16. The requirement to provide co-financing to the projects implemented by the Final Recipients from resources additional to the funds received from the FoF, within the period and in the amounts prescribed in the Operational Agreement based on the submitted EoI. Failure to provide the required co-financing shall result in proportional reduction of due management fees.
17. The requirement to achieve the related output and result indicators as required by the ROP MV 2014-2020 and prescribed in the Operational Agreement. Failure to achieve the required indicators shall result in proportional reduction of due management fees in line with Article 12 of the CDR. Financial Intermediaries may be required to monitor and report on additional indicators.
18. The requirement to monitor the implementation of projects by the Final Recipients as required by Applicable Laws.

19. The requirement to report periodically (on monthly and quarterly bases, and ad-hoc subject to needs) to the EIB on the progress in implementation of the Financial Instrument, the scope of which, templates and standard procedures to be decided by the EIB.
20. The requirement to comply with publicity requirements under the Applicable Laws and the Operational Agreement, including to inform the Final Recipients, in accordance with Article 115 and Annex XII of the CPR, that the funding is provided under co-financed programmes from ESIF.
21. The requirement to set up and maintain a separate accounting system or use a separate accounting code for disbursements to the Final Recipients and to maintain an audit trail regarding investments (including identification of amounts disbursed for investment in accordance with any relevant Priority Axis(-es)/Measures).
22. The requirement to enable the FIs to be audited by or on behalf of the EIB, the MA, the Polish audit authority, the Commission and the European Court of Auditors, and to allow these entities access to documents and premises related to the FI.
23. The requirement to agree that the Financial Intermediary cannot make a claim for any amount beyond the amount committed to it from the FoF.
24. The requirement to agree that the Financial Intermediary will adopt procedures preventing double financing of projects.
25. The requirement to agree that the Financial Intermediary for the purpose of the relevant FI, shall not enter into business relations with any entities incorporated in a Non-Compliant Jurisdiction.
26. The requirement to agree that the Financial Intermediary will ensure that the selected projects are not physically completed or fully implemented at the date of the investment decision.
27. The requirement to ensure that rules of universal designing are applied in relation to the investments carried out by the Final Recipients.
28. The requirement to maintain confidentiality in relation to all personal data entrusted to the Financial Intermediary during the term of the Operational Agreement or documents obtained in connection with the activities covered by this Operational Agreement.
29. The requirement to comply with the provision and standards, as implemented in the governing national law, set out in Directive 2005/60/EC of the European Parliament and of the Council of 26 October 2005 and/or Directive 2015/849 on the prevention of the use of the financial system for the purposes of Money Laundering (“ML”) or Terrorist Financing (“TF”); the Financial Intermediary should meet the standards described in the “Anti-Money Laundering Questionnaire” issued by the Wolfsberg Group.
30. The requirement to apply (i) European restrictive measures issued pursuant to Chapter 2 of Title V of the Treaty on European Union as well as Article 215 of the Treaty on the Functioning of the European Union and (ii) United Nations sanctions decided by the UN Security Council pursuant to Article 41 of the UN Charter and (iii) to the extent applicable sanctions imposed by the competent US sanctions authorities (such as the Office of Foreign Asset Control).
31. The requirement to comply with the applicable legislation and market standards, concerning, *inter alia*, tax fraud, tax evasion, tax avoidance, aggressive tax planning and harmful tax practices. Financial Intermediaries shall not (i) be established and shall not maintain business relations with entities incorporated in territories whose jurisdictions do not cooperate with the European Union in relation to the application of the internationally agreed standards with respect to money laundering, financing of terrorism, tax fraud, tax evasion, tax avoidance, aggressive tax planning

or harmful tax practices or (ii) engage or promote the engagement in any jurisdiction in activities, arrangements or series of arrangements which, having regard to all relevant facts and circumstances, could reasonably be considered as having been implemented for the purposes of any of the aforementioned.

The Financial Intermediary shall acknowledge the EIB Anti-Fraud Policy which sets out the policy of the EIB for preventing and deterring corruption, fraud, collusion, coercion, obstruction, money laundering and terrorist financing and shall take appropriate measures (as may be further specified in the Operational Agreements) to facilitate implementation of such policy.

The Financial Intermediary will be required to pass on certain of these obligations to the Final Recipients (including but not limited to obligations regarding sanctions compliance, Anti-Fraud and Anti-Money Laundering/Combating the Financing of Terrorism to the extent applicable) and ensure that certain rights and obligations are included in their agreements with the Final Recipients (including the right to recover from the Final Recipients any amount that forms an Irregularity).

4. The EIB reserves the right to reject any application that fails to comply with the specifications of this Call for Expression of Interest.
5. The EIB reserves the right to reject any Applicant:
 - (i) guilty of material misrepresentation;
 - (ii) who contravenes any of the terms of this document; and/or,
 - (iii) undergoing a change in identity, control, financial standing or other factor impacting on the selection and/or the evaluation process affecting the applicant.
6. EoIs must be drawn up in writing in English (applications in other languages will not be accepted). Any official documents in a language other than English must be accompanied by a certified translation.
7. Applicants must respond to the requirements set out in this Call for Expression of Interest item by item.
8. The EIB may cancel this Call for Expression of Interest without notice at any time. The EIB reserves the right not to sign an Operational Agreement with any Applicant or to award the Lots separately to different Applicants, or to cancel certain Lots. Applicants shall respond to this Call for Expression of Interest on the understanding that they would not be entitled to any form of compensation, should the EIB decide to interrupt or cancel the Call for Expression of Interest before the Operational Agreement is signed.
9. EIB has no obligation to enter into an Operational Agreement with the selected Applicant. Following the selection of an Applicant EIB may enter into an Operational Agreement subject to (i) successful commercial and legal negotiations, (ii) the relevant EIB internal approvals under EIB own rules and procedures and (iii) the approval of the IB.
10. Participation in this Call for Expression of Interest shall be taken as acceptance of all the terms and conditions mentioned in this Call for Expression of Interest and the conditions of the specifications.
11. The EIB reserves the right to seek additional detail from an Applicant to clarify any part of the Applicant's EoI.
12. EoI must be drawn up on paper in duplicate, i.e. one original and one copy: each clearly marked "Original" or "Copy" as well as an identical electronic copy on CD or USB stick clearly marked with the name of the Applicant and the Ref. Number.
13. All Applicants will be informed in writing of the outcome of their applications.
14. Applicants may be invited to a presentation, if the EIB so decides. Applicants will not be permitted to modify the terms and conditions of their EoI during their presentation or at any other time after the application has been submitted to the EIB.
15. The EIB Complaints Mechanism Policy shall apply. In addition, any legal dispute arising out of or related to this procedure shall be resolved by the European Court of Justice

7. Selection process

Financial Intermediaries shall be selected on the basis of an open, transparent, proportionate, non-discriminatory and objective selection procedure avoiding conflicts of interest, in line with EIB's policies, rules, procedures and statutes.

Stages of the Selection process:

1. The EIB will reject the EoIs from Applicants which do not comply with the Exclusion Criteria set out under Section 9 below.
2. Those Applicants whose EoI is not rejected according to the Exclusion Criteria will go through the EIB evaluation process based on the Administrative Criteria set out under Section 10 below.
3. Those Applicants whose EoI passes the Administrative Criteria will thereafter be assessed on the basis of the Assessment Criteria set out under Section 11 below.
4. The selection shall be done by establishing a ranking amongst the EoI on the basis of the Assessment Criteria. The EoIs shall be ranked in order of preference with the preferred one ranking first (the Applicant of such application being referred to as "Selected Applicant").
5. Thereafter the EoI of the Selected Applicant shall be submitted to the IB. Following the approval of the IB, the EIB shall commence negotiations with the Selected Applicant.
6. The remaining EoI(s), if any, that have not been excluded on the basis of the Exclusion Criteria and have passed the Administrative criteria, may, at the discretion of the EIB, be included in a reserve list for a period not exceeding the first anniversary of the date for submission of EoIs. Those Applicants whose EoIs have been rejected will be informed in writing.
7. If the EIB and the Selected Applicant fail to reach agreement on the terms of an Operational Agreement or if the Operational Agreement with the Selected Applicant is fully or partially terminated irrespective of the cause, the EIB may enter into negotiations with a view to concluding an Operational Agreement with the Applicant ranked first on the reserve list and so on.
8. The EIB may, in the context of the above, perform one or more due diligence processes, on any of the Selected Applicant(s) and their EoIs, with a view to confirming the findings of the Evaluation process.

8. Minimum Content of the Business Plan

The Business Plan to be included in the EoI must address the areas detailed below. In case the Applicant submits its EoI in relation to more than one Lot, the Business Plan should address each Lot separately where relevant. The parts of the Business Plan relating to each Lot will be assessed separately.

I. Investment Policy

The Applicant should put forward its investment policy and explain how it can reach the objectives initially specified in the ROP MV 2014-2020 and set by the FoF.

The Applicant shall indicate that support will be granted only for projects eligible under the following Priority Axes/Measure of ROP MV 2014-2020: Priority Axis IV, Measures 4.1 and 4.2, and/or Priority Axis VI, Measure 6.2 and compliant with the provisions of the Detailed Description of the Priority Axes of ROP MV 2014-2020 and Applicable Laws.

The presentation of the Applicant's investment policy may refer to the best practices and benchmarks in this field as described by the Applicant.

In particular the investment policy should address the following:

1.1. Consistency with ROP MV 2014-2020 objectives

This section should explain what role the Applicant will assume in implementing the FI. It should outline the objectives of the Applicant and link these to the ROP MV 2014-2020 objectives and the FoF Investment Strategy, and any other relevant strategies, such as the Development Strategy of the Mazowieckie Region until 2020 "Innovative Mazovia".

1.2. Compliance with eligibility conditions

In this section the Applicant should evidence how it meets the conditions set out in Article 7(1) of the CDR⁵ and confirm that it does and will comply with the requirements set out in Articles 140 (1), (2) and (4) of Regulation No 966/2012 on the financial rules applicable to the general budget of the Union (OJ L 298 of 26.10.2012, p. 1).

Although different types of projects can be distinguished, all projects shall demonstrate the following parameters:

1.2.1. General requirements:

- a) compliance with Applicable Laws;
- b) soundness in terms of business model, cash flows, partners, etc.;
- c) projects shall be structured in such a way so that they generate revenue, as required by ESIF Regulations (in the case of PPP-type or similar projects – these revenues shall

⁵ Minimum requirements for bodies implementing FIs:

- (a) entitlement to carry out the implementation tasks under Union and national law;
- (b) adequate economic and financial viability;
- (c) adequate capacity to implement the FI, including organisational structure and governance framework providing the necessary assurance to the EIB and the MA;
- (d) existence of an effective and efficient internal control system;
- (e) use of an accounting system providing accurate, complete and reliable information in a timely manner;
- (f) agreement to be audited by Member State audit bodies, the Commission and the European Court of Auditors.

include all potential payments to be received by projects from relevant public authorities or other project promoters);

- d) projects shall ensure appropriate economic and / or social benefits.

1.2.2. Requirements related to the ROP MV 2014-2020:

- a) Projects shall be compliant with applicable eligibility rules as prescribed for the relevant Priority Axes/Measures in the Detailed Description of the Priority Axes of ROP MV 2014-2020 and other relevant documents.
- b) Projects shall contribute to the objectives stipulated for the relevant Priority Axes/Measures of ROP MV 2014-2020.
- c) Projects shall contribute to the achievement of the respective ROP MV 2014-2020 indicators as described for the relevant Priority Axes/Measures of ROP MV 2014-2020.

1.2.3. Financial, economic and social parameters:

- a) Financial criteria will differ according to the projects and shall be established by a Financial Intermediary on a case by case basis. These criteria may include: internal rate of return, net present value, pay-back period, cash flow profile, availability and form of collateral (if required), other financial indicators typically used in credit analysis, etc. There are no specific requirements imposed on projects with respect to financial criteria other than those described in the relevant ESIF Regulations. Each Applicant shall present their views on what financial criteria shall be met by projects in order to achieve desired objectives. It is acknowledged that for some projects precise calculation of financial indicators may not be possible at the time of presenting the EoI. In such cases the EoI will still be acceptable.
- b) The assessment of projects as regards their economic sustainability and impact should include the following aspects of the projects: cost / benefit analysis (where possible to prepare), contribution to meeting relevant indicators of ROP MV 2014-2020, potential to attract additional funding from other public and private sources, potential to attract investors in other projects, which would be complementary or which could create economic or social synergies.
- c) The assessment of projects under Lot 3 should include also their social components, i.e. the assessment of expected social benefits resulting from the projects' implementation.

1.3. Description of the product

The below description of the terms of financial products to be offered under the FI is indicative and non-exhaustive and may be subject to change in accordance with the relevant legal acts and the final terms of the Operational Agreement.

The selected Financial Intermediary(-ies) will receive funds from the FoF to invest in projects through preferential loans. The terms and conditions of financing from the FI should be sufficiently more advantageous in relation to market terms, so that due to FI financing, the rate of return for providers of debt to a given project reaches a fair market level, where applicable.

Financing will be aimed to support investments in the areas described in Section 3.2 of this Call. It is expected that the EoIs submitted by the Applicants comply with the minimum terms as set below. More detailed parameters of financial products will be negotiated with successful Applicant(s) and included in the Operational Agreement(s).

Lot 1 - Renewable energy sources

Under this Lot the financial product to be offered will be a risk-sharing loan with elements of preferential interest rate. Key information for the structuring of this product is provided below:

- a) Supported projects types may include construction and reconstruction of infrastructure for the production and distribution of energy from RES, especially for solar power, small wind power and biogas;
- b) Final Recipients include: entrepreneurs operating in production and supply of electricity, gas, steam, hot water and air for air conditioning systems; and self-governmental units;
- c) PLN denominated amortising loan for investments aimed at production and distribution of energy from renewable energy sources (only newly originated loans can be granted);
- d) loan shall be used exclusively for investments in tangible and intangible assets;
- e) maximum loan amount: PLN 20 million, to be accommodated if needs be;
- f) maturity: up to 120 months, to be extended in justified cases;
- g) grace period: up to 12 months following the completion of a project to be extended in justified cases;
- h) collateral: in line with market practice, type and amount depends on the type of the Final Recipient and the amount of the loan as well as project characteristics;
- i) interest rate: standard market rate or preferential interest rate in justified cases.

It is considered to offer Financial Intermediary(-ies) a possibility to receive support in identifying and screening projects to be supported by the FI under this Lot.

Lot 2 – Energy efficiency

Under this Lot the financial product to be offered is a preferential loan that should include at least the following indicative parameters:

- a) Support shall be provided for deep thermo-modernisation in residential buildings, including:
 - thermal insulation of the building;
 - replacement of windows, external door and energy-saving lighting;
 - reconstruction of heating systems (including replacement and connection to the heat source);
 - reconstruction of ventilation and air conditioning;
 - energy management systems;
 - installation of RES in the energy retrofitted buildings;
 - installation of cooling systems, including RES;
 - installation of metering systems, etc.

Projects related to the deep, complex energy modernisation increasing the energy efficiency in less than 25% are not eligible for financing.

- b) Financial Recipients include⁶: housing co-operatives, housing associations, social housing associations (TBS), and self-governmental units; regarding the projects related to the thermomodernisation of residential buildings, the following investments will be supported:
 - within the area covered by the ITI Strategy for the Warsaw Functional Area and sub-regional

⁶ Provided the related provisions in the programming and implementing documents do not change.

cities – investments implemented by the entities other than housing co-operatives and housing associations;

- outside the area covered by the ITI Strategy for the Warsaw Functional Area and sub-regional cities – investments implemented by all entities (including housing co-operatives and housing associations).

- c) PLN denominated amortising loan for investments aimed at increase in energy efficiency (only newly originated loans can be granted);
- d) loans shall be used exclusively for investments in tangible and intangible assets;
- e) Maximum loan amount: PLN 5 million, to be accommodated if needs be;
- f) Maturity: up to 120 months, to be extended in justified cases;
- g) Grace period: up to 12 months following the completion of a project, to be extended in justified cases;
- h) Collateral: in line with market practice, type and amount depends on the type of the Final Recipient and the amount of the loan as well as characteristics of the supported project;
- i) Interest rate: preferential, calculated on the basis of the standard market rate decreased on the basis of the achieved ecological effect; the calculation methodology for the preferential rate shall be proposed by the Financial Intermediary under the selection procedure.

It is required that the Final Recipients present an energy audit report to justify the scope of the project and confirm that at least the minimum required energy savings will be achieved. It is therefore considered to offer Financial Intermediary(-ies) a possibility to receive support in identifying and screening projects to be supported by the FI and to finance energy audits under this Lot.

Lot 3 - Revitalization of marginalized areas

Under this Lot, the financial product to be offered is a preferential loan that should include at least the following indicative parameters:

- a) Supported projects types shall include:
 - development of technical infrastructure in revitalised areas for their economic and social activation; and
 - renewal of residential areas, in terms of the common parts of multi-family residential buildings, as part of a wider revitalisation operation;
- b) Financing can be provided only to support projects complementary with other social projects. Final Recipients are obliged to demonstrate the complementarity and connection of their project with other activities financed from the ESF or from other sources either by themselves or by other entities;
- c) Support may be provided only to projects that are compatible with the revitalization program of the area where the project is implemented. Such a revitalization programme has to be included on the list of revitalization programmes of the Mazowieckie Voivodeship;
- d) Final Recipients include: self-government units, their unions and associations; self-government organisational units with legal personality; NGOs; organisational units of social assistance and integration; churches and religious associations and legal persons of churches and other religious organizations; enterprises, including social enterprises; cultural institutions; educational

institutions; labour market institutions; housing co-operatives and housing associations; and social housing associations;

- e) PLN denominated amortising loans for investments aimed at regeneration of degraded areas (only newly originated loans can be granted);
- f) loans shall be used exclusively for investments in tangible and intangible assets;
- g) maximum loan amount: PLN 20 million, to be accommodated if needs be;
- h) maturity: up to 180 months, to be extended in justified cases;
- i) grace period: up to 24-48 months for the investment period;
- j) collateral: in line with market practice, type and amount depends on the type of the Final Recipient and the amount of the loan as well as characteristics of the supported project.
- k) interest rate: preferential, calculated on the basis of the standard market rate decreased on the basis of social elements included in the project; the calculation methodology for the preferential rate shall be proposed by the Financial Intermediary under the selection procedure.

More details can be found in the Detailed Description of the Priority Axes of ROP MV 2014-2020 available on the programme's website.

1.4. Target market

This section should clearly and briefly specify the characteristics of the target Final Recipients. This should be based on the type of Final Recipients mentioned under each Priority Axis of ROP MV 2014-2020 that allocates funds to the FI, as well as in the Investment Strategy of the FoF. The target market may change from time to time depending on multiple factors.

1.5. Leverage / Co-financing

The Applicant should describe the envisaged strategy for attracting other public/private investment into the FI in the form of additional co-financing. It should also outline the leverage effect that will be generated from this additional co-financing using the following multiplier:

Leverage = Total finance reaching Final Recipients / ESIF contribution

The proposed additional co-financing must not be lower than the minimum required by the ROP MV 2014-2020 as private contribution to the FI, i.e. 20% of total amount under each Lot. The targeted additional co-financing, however, is 100% of the amount received by the Financial Intermediary from the FoF. There must be no preference of co-financing over the funds contributed from the FoF.

Under JESSICA, Final Recipients accepted only lower co-financing rates with the argument of the relatively high interest rates offered. It is therefore proposed to Financial Intermediaries to subordinate the ESIF to the co-financing, i.e. repayments would first be used to reduce the Financial Intermediaries' loans from own funds before the ESIF loans are being serviced. In this way, the risk and maturities of the co-financing would be significantly reduced, thus resulting in much lower interest rates. In line with the rules on State aid, the advantages gained from the subordination need to be passed on in full to the Final Recipients. The Applicant shall present the methodology describing how these advantages will be transferred.

Eligible Financial Intermediaries will have the possibility to apply for an EIB financing to fulfil their co-

financing obligations subject to the EIB's internal approvals.

1.6. Project pipeline/portfolio definition

Applicants shall be responsible for the identification and evaluation of projects. Each Applicant should demonstrate the robustness of the project pipeline and compliance of all projects with the objectives as presented in ROP MV 2014-2020.

In addition, Applicants that are able to provide evidence of a pipeline of projects and specific details of "early win" projects will provide a greater degree of comfort to the EIB that they are in a position to invest in projects within the relatively tight timescales envisaged for investment. Therefore, when possible, Applicants are invited to present in their EoIs details of specific projects already identified, even if it is recognised that some project details may be less developed (or provided on an indicative basis) than others and that the project pipeline / financial plan will need to be subject to flexibility and further development / agreement going forward. Provision for this will be made in the Operational Agreement to be signed with the Financial Intermediary. For the avoidance of doubt, the proposed project pipeline under Lot 3 should not concern projects included in the revitalisation programme as provided for in the "List of revitalisation programmes of the Mazowieckie voivodeship".

The portfolio of projects should contain projects that the Applicant undertakes to finance, unless circumstances of a nature that could not have been predicted or were unknown at the time of preparation of the EoI occur. In such cases, the possibility of substituting projects contained in the Business Plan with other projects of a similar nature, including similar balance between financial and socio-economic benefits, will be permitted.

In case the Applicant has not established the project pipeline at the time the EoI is submitted, it will present a strategy to develop a robust pipeline, including its timeline.

1.7. Marketing of the instrument

This section should briefly describe a strategy for making the FI and its benefits known to its target market. Final Recipients should be made aware that financial assistance is available to them and then be informed that the assistance they receive is co-financed from ESIF. If the MA and/or the EIB make(s) additional efforts to inform the general public about the FI, these should be described in this section together with potential synergies between the proposed marketing strategy and other information efforts.

1.8. Selection methodology for Final Recipients

This section should take into account the elements mentioned in the 'target market', 'project pipeline/portfolio definition' and 'risk management' parts and set forward a selection methodology that addresses the objectives and risks already identified. Selection should be in line with the requirements of the CPR and the CDR, in particular Article 6(1)(a) of the CDR, as well as applicable State aid rules and public procurement rules where relevant. The Applicant should describe in this section how it intends to check and control eligibility criteria of the ROP SV 2014-2020 when selecting the Final Recipients.

In case the portfolio of projects is provided by the Applicant, it shall not be interpreted as an exhaustive list. It is expected that the Financial Intermediary will continue to look for other projects not identified at a time of presenting the EoI. For this aim, the Applicant should describe the methodology for the research and evaluation of all projects, including future ones. The methodology should contain provisions assuring that all projects will comply with the objectives as presented in ROP MV 2014-

2020 (including quantitative outputs) and relevant ESIF Regulations.

In particular, the methodology shall detail the means and the key steps applied to ensure the selected projects reach the necessary level of advancement for investment under the FI financing. Such methodology shall cater for the different stages of development of each project, including projects which are only at conceptual stage.

Based on the Applicant's knowledge of the regional / local market and regional / local needs, the Applicant shall also present rules of cooperation with and support to be provided to regional / local authorities as regards identification and financing of projects. To this end, Applicants shall specify the strategy to ensure adequate regional / local presence in the Mazowieckie Voivodeship, in order to develop and maintain appropriate contacts and relationships with relevant authorities (mainly the MA and local authorities) as well as regional / local stakeholders and project delivery bodies (either public or public-private involved at project level).

Finally, Applicants should also include a full description of their internal scoring system used for the credit risk assessment of each project and for the pricing of the operations, if applicable, and describe the measures to ensure that the selected projects under Lot 3 would include social components.

1.9. Exit Strategy

The Applicant should describe its proposal for exit strategy and, where necessary, early withdrawal procedures from Final Recipients' projects, along with their trigger conditions.

Based on exits, resources will be paid back including capital repayments with gains and other earnings or yields, such as interest or any other income generated by investments, which are attributable to the support from the ESIF.

1.10. Reuse provisions

The Applicant should describe its strategy to reuse the resources paid back to the FI from investments in Final Recipients but not yet repaid to the FoF to finance further projects until the end of the Eligibility Period in line with Article 44 of the CPR.

1.11. State aid

Under FI, no State aid is expected at the level of selected Financial Intermediaries, subject to the following requirements:

- a) remuneration of the Financial Intermediary corresponds to the market remuneration in similar situations, which is the case when Financial Intermediaries are selected in an open, transparent, non-discriminatory and objective procedure, or when the remuneration is consistent with the provisions of Articles 12 and 13 of the CDR, and no other benefits are granted by public authorities;
- b) risks and gains are shared on *pari passu* terms between public and private investors;
- c) funds from the ROP MV 2014-2020 contribution are transferred entirely to Final Recipients in the form of preferential interest rates; and
- d) the advantages gained from the subordination of the ROP MV 2014-2020 contribution to the co-financing are passed on in full to the Final Recipients in the form of lower pricing.

At the level of Final Recipients, State aid will be granted pursuant to relevant Applicable Laws related

to granting State aid and described in the Detailed description as in force at the time of submission of the Proposal.

The Applicant should describe how it will be ensured that State aid rules will be adhered to during the FI implementation.

II. Management Team and experience

The Applicant should outline the roles and responsibilities of the management team and detail how specific departments or individuals fit their proposed roles.

It should describe how the management team fits into the broader organisation of the Financial Intermediary and indicate the experts and departments that would contribute to both the FI and other activities of the Financial Intermediary such as the risk management or legal departments. Where relevant, it should also show how conflicts of interest are avoided.

The Applicant shall indicate a team of experts with experience in relevant fields, which shall be established and is available in order to complete the project's objectives. It will also detail any capacity building activities for existing staff or delegation of knowledge-intensive tasks to sub-contractors. It should further outline the roles and responsibilities of internal teams such as project selection team/risk management team or internal control bodies. Key experts should be nominated. Short CVs for the key experts, including a Project Manager, as well as other key persons (responsible, among others for reporting, controlling, risk analysis activities, etc.) should be provided.

The Applicant shall describe relevant experience in identifying and extending loans from own or other funds for similar types of projects in the market. It shall also present experience in the implementation of similar financial instruments.

The Applicant should demonstrate that the implementation of FI will be additional to its current activity.

III. Governance and implementation

The Applicant shall describe the management, administration and accounting procedures, which will be applied in the exercise of the function of the Financial Intermediary. The Applicant should indicate the roles and responsibilities for implementation of the FI, including any stakeholder representation.

The responsibilities of the management (and if applicable advisory) bodies should be described, together with composition and method of appointment, and decision procedures such as the organisation of meetings, voting procedure, acceptance threshold and veto rights.

The Applicant should also present the corporate governance provisions for the Financial Intermediary, including internal control procedures. The Applicant shall also describe risk management procedures that will be applied to the operations of the Financial Intermediary. The proposed credit risk policy guidelines applicable to FIs and, if applicable, their deviations from credit risk policy guidelines applicable to the Applicant's own resource lending of comparable loan products" shall be included.

The governance provisions shall also define the mechanisms to guarantee the compliance of projects with eligibility criteria under ROP MV 2014-2020, Applicable Laws, and obtaining all relevant authorisations and licences relevant thereto, as well as the fulfilment of all obligations arising from the ESIF co-financing according to Applicable Laws.

For that reason, Applicants should pay particular attention to the procedures to be adopted to ensure

the compliance of projects with rules on Eligible Expenditure and technical / economic quality requirements. Applicants shall propose the structure and operation of the Financial Intermediary management system, which should ensure a proper appraisal of the projects.

3.1. Legal and Ownership structure

This section should describe the legal and ownership structure of the Applicant.

The Applicant shall provide information on the proposed legal structure of the Financial Intermediary, which shall be in line with relevant ESIF Regulations.

Potential Financial Intermediaries may be established as: banks, including cooperative banks, loan funds and guarantee funds, public agencies and other institutions responsible for fulfilling public tasks, investment funds or managers thereof or other institutions authorised to conduct loan and guarantee operations in the supported areas.

The Applicant shall present information on the ownership structure of the Financial Intermediary.

The Applicant shall identify the manager of the Financial Intermediary who will be either the Applicant itself or a member of its group or a member of the consortium or their respective groups.

The Applicant shall provide a copy of the documents regulating its economic activities (by-laws, founding documents, licences, patents, etc.) evidencing the provision of financial services and its status as a financial institution and its entitlement to carry out the tasks foreseen under EU and national law. The Applicant must also provide information on its ownership structure, as well as financial statements for the past 3 years.

3.2. Risk Management and Internal control systems

The Applicant should demonstrate how it intends to manage the investment risks, including the risk of Irregularities, when implementing the FI, taking into account that addressing market gaps may imply a higher risk than the market is ready to take.

Risk management proposal should generally be based on the Applicant's own experience with similar instruments. This section should address typical risks and how to address these, recovery procedures (including in respect of amounts affected by Irregularities), typical default rates and forecasts of losses, risk mitigation measures, diversification measures and monitoring procedures.

The Applicant shall describe accounting systems to ensure accurate, complete and reliable information in a timely manner.

3.3. Economic and financial capacity

The Applicant shall present evidence of its economic and financial capacity by referring to an external market rating of at least BBB- at all times as assigned by Standard and Poor's Rating Group and/or Fitch Ratings Limited and/or Baa3 as assigned by Moody's Investors Service.

In case the Applicant does not fulfil the above criteria (i.e. it is not rated or is rated below the minimum), it shall propose adequate measures to mitigate the risks related to probability of default and thus a potential failure to fulfil the contractual obligations, subject to their approval by the Investment Board.

3.4. Conflicts of interest

The Applicant should describe how it will ensure the impartiality of the selection process for Final Recipients and the management of the funds allocated to it. It should identify any existing conflicts of interest and describe conflict of interest procedures.

3.5. Treasury Management

The Applicant should specify how idle funds are managed. To this end, the Applicant shall present the level of the interest rate offered on available funds, not yet invested in projects. The interest rate should be proposed based on WIBOR⁷. Negative interest will not be considered to be an eligible expense.

3.6. Monitoring and Reporting procedures

The Applicant should describe procedures to monitor and control the implementation of projects by the Final Recipients. It should also prove to fulfil the requirement to report periodically (on monthly and quarterly bases, and ad-hoc subject to needs) to the FoF on the progress in implementation of the Financial Instrument, the scope and standard procedures of which are to be decided by the EIB, the MA, the IB and other authorised entities.

IV. Terms and conditions

4.1. Management Fee

The FoF will compensate a Financial Intermediary for its operations in the form of a management fee.

The management fee shall include all fees and expenses to be incurred by the Financial Intermediary in relation to administration services and other auxiliary activities provided. If the Financial Intermediary foresees a combination of its management fee proposal with remuneration received also from projects this must be clearly stipulated in its EoI. However, should this not be the case, the Financial Intermediary shall not have the right to request remuneration from projects with respect to the same. In any case, it shall not be allowed to receive the management fee and charge arrangement or other fees to Final Recipients in relation to parts of loans financed by ESIF.

Where the Applicant applies for more than one Lot, it should provide its proposal in relation to management fees in respect of each Lot separately and also provide its proposal in relation to management fees in respect of all Lots together.

The required level of a management fee payable to the Financial Intermediary by the FoF shall be indicated in the Business Plan submitted by each Applicant. The management fee may not exceed, on an annual average, the thresholds specified in Article 13 of the CDR. The management fee shall be calculated as a percentage of the funds contributed from the FoF to the Financial Intermediary. The management fee shall not be calculated on the interest earned by a Financial Intermediary on any deposits of funds contributed to the Financial Intermediary by the FoF and not yet invested in projects or returned to the Financial Intermediary from investments in projects and not yet re-invested.

The Applicant must propose the methodology to calculate the management fee linked to the following components:

- a) the disbursement of contributions provided by ESIF;

⁷ Entities that do not conduct deposit-related activity may deposit entrusted funds in the third bank, subject to the EIB's approval.

- b) the resources paid back from investments;
- c) the quality of measures accompanying the investment before and after the investment decision to maximise its impact; and
- d) the contribution of the FI to the objectives and outputs of the ROP MV 2014-2020.

The EIB is expecting management fees to be within the following thresholds specified in Article 13 of the CDR:

1. a base remuneration - 0,5 % *per annum* of the ESIF contributions paid to the FI, calculated *pro rata temporis* from the date of effective payment to the FI until the end of the Eligibility Period, the repayment to the MA, or to the FoF, or the date of winding up, whichever is earlier; and
2. a performance-based remuneration - 1 % *per annum* of the ESIF contributions paid to Final Recipients in the form of loans, as well as of resources re-invested which are attributable to the ESIF contributions, which have yet to be paid back to the financial instrument, calculated *pro rata temporis* from the date of payment to the Final Recipient until repayment of the investment, the end of the recovery procedure in the case of defaults or the end of the Eligibility Period, whichever is earlier.

The aggregate management fee over the Eligibility Period may not exceed 8 % of the total amount of ESIF contributions paid to the FI.

In any case, Applicants are expected to propose a management fee that incentivises them, namely the FI manager, to invest in projects in a timely and efficient manner and maximise output targets.

The amount equal to the management fee shall be each time debited by a Financial Intermediary (when due) from the amounts held by a Financial Intermediary. The detailed provisions concerning the management fee shall be established in the Operational Agreement.

4.2. Winding-up provisions

The Applicant should briefly describe the proposal for winding-up procedures for the FI, including conditions for returning any resources attributable to the ESIF contribution to the FoF, the MA, or to another designated competent public authority. This would include returns from the original investment plus any interest and other gains.

Winding-up may take place before or after the end of the Eligibility Period and the repayment of the contributions to the MA or to the FoF. If before, the date of winding-up is used as a reference for the *pro rata temporis* calculation of the thresholds for management fees of the FoF and the base remuneration of the Financial Intermediary.

Certain aspects of the Business Plan (which shall not include management fees) may be developed by mutual consent during the negotiation period for the Operational Agreement.

The Applicant should indicate any other elements relevant for the evaluation of the Business Plan in accordance with the Assessment Criteria.

9. Exclusion Criteria

All Applicants shall provide the declaration in Appendix 3 to the EoI ("Declaration of Honour on Exclusion Criteria and Conflict of Interest") regarding the exclusion criteria and the absence of conflict

of interest, duly signed and dated by an authorised representative, stating that they are not in one of the situations listed in Appendix 3 to the EoI.

All Applicants shall provide a completed Wolfsberg Questionnaire, duly signed and dated by an authorised representative, copies of internal policies and procedures regarding Anti-Money Laundering/Combating the Financing of Terrorism, sanctions compliance, Anti-Fraud/Corruption and further information, if requested by the EIB.

The selected Financial Intermediary shall provide the documents mentioned as supporting evidence in Appendix 3 to the EoI before signature of the Operational Agreement and within the deadline specified by the EIB.

10. Administrative Criteria

Applications not excluded in accordance with the Exclusion Criteria, will be assessed on the basis of the following Administrative Criteria:

- The EoI includes a completed table in the form attached as Appendix 1 and all supporting documents are provided;
- Declaration indicated in Appendix 2 is completed, supported by the necessary documentary evidence, and is acceptable to the EIB.

11. Assessment Criteria

EoIs which have not been excluded on the basis of the Exclusion Criteria and which meet the Administrative Criteria will be evaluated on the basis of the Assessment Criteria, as described in the below.

In case the score received in any of the below Assessment Criteria is equal to 0, such EoI will be excluded.

<p>Total maximum points</p>		<p>100</p>

All Eols will be compared individually and the Eol with the highest score will be compared to each individual Eol (i.e. Eol of Applicant being measured/Eol with the highest score of all Applicants), resulting to the best Eol achieving a rating of 1. Inferior Eols will hence score proportionately lower than 1.

The results will define the score, in accordance with the following principle:

Rank 1: Awarded full points

Rank 2: Awarded 85% of the points

Rank 3: Awarded 70% of the points

Rank 4: Awarded 55% of the points

Subsequent rankings will apply the same logic with 15% marks being deducted for each lower ranking accordingly.

The EIB reserves the right to verify the correctness of the information received. The EIB may, on its own initiative, inform applicants of any error, inaccuracy, omission or any other error in their application. If clarification is required or if obvious clerical errors in the application need to be corrected, the EIB may request the applicant to provide clarifications and/or additional information provided the terms of the submitted Eol documents are not modified as a result.

VI - REMEDIAL MEASURES

If the person declares one of the situations of exclusion listed above, it must indicate measures it has taken to remedy the exclusion situation, thus demonstrating its reliability. This may include e.g. technical, organisational and personnel measures to prevent further occurrence, compensation of damage or payment of fines. The relevant documentary evidence which illustrates the remedial measures taken must be provided in annex to this declaration. This does not apply for situations referred in point (d) of this declaration.

VII – EVIDENCE UPON REQUEST

Upon request and within the time limit set by the contracting authority the person must provide information on the persons that are members of the administrative, management or supervisory body. It must also provide the following evidence concerning the person itself and concerning the natural or legal persons which assume unlimited liability for the debt of the person:

For situations described in (a), (c), (d) or (f), production of a recent extract from the judicial record is required or, failing that, an equivalent document recently issued by a judicial or administrative authority in the country of establishment of the person showing that those requirements are satisfied.

For the situation described in point (b), production of recent certificates issued by the competent authorities of the State concerned are required. These documents must provide evidence covering all taxes and social security contributions for which the person is liable, including for example, VAT, income tax (natural persons only), company tax (legal persons only) and social security contributions.

Where any document described above is not issued in the country concerned, it may be replaced by a sworn statement made before a judicial authority or notary or, failing that, a solemn statement made before an administrative authority or a qualified professional body in its country of establishment.

The person is not required to submit the evidence if it has already been submitted for another selection procedure. The documents must have been issued no more than one year before the date of their request by the contracting authority and must still be valid at that date.

The signatory declares that the person has already provided the documentary evidence for a previous procedure and confirms that there has been no change in its situation.

The above-mentioned person may be subject to rejection from this procedure if any of the declarations or information provided as a condition for participating in this procedure prove to be false.
