1.	<p>Section II. point 3 states that, in case applicants apply for both Lots, they shall submit two separate Offers in the form of a Business Plan, while Section III.B outlines that, if any of the information required in the Business Plan is different in case the applicant is awarded both Lots, this information should be provided separately. For the sake of clarity, do the applicants submit two separate Business Plans (14 sections for each BP), one for each of the Lots, even if they apply for the management of a unique UDF Urban Regeneration + Energy?</p>	<p>Applicants applying for both Lots (even if only one UDF is implemented) shall apply separately for each Lot by submitting, during Stage 2, two separate Offers, with a separate Business Plan each.</p> <p>Nevertheless some aspects of each of the Business Plans may be considered differently by the applicants in the case of being awarded both Lots. Therefore, the applicants may provide separately any relevant information on such aspects, in addition to the two separate Business Plans to be presented for the two Offers.</p> <p>The two Offers will be evaluated independently.</p>

UDFs are invited to provide possible additional financial structures including the possibility to manage a total of EUR 210m of which, EUR 70m as funds coming from the JSHF and EUR 140m as additional EIB lending to the UDF. <p>Which is exactly the total amount of the Funds coming from the JSHF: EUR 66m or EUR 70m?</p>	<p>The amount allocated under each Lot is approximately EUR 33 million. Hence, should an applicant be awarded both Lots, the total amount of JSHF resources received for managing both Lots is approximately EUR 66 million.</p>
