

Economists Advisory Group

Monday 4 April 2016, from 10.45 to 16.00

Venue: European Investment Bank (West Entrance)
100 Boulevard Konrad Adenauer, Luxembourg
Room WKI.7020

This event will be the first meeting of the EIB's Economists Advisory Group, a selected group of economists from leading international banks and institutions, who are to meet on a regular basis to hold a high level and closed-door dialogue on key economic developments and forthcoming challenges. These workshops of about 20 participants are to take place twice per year and will allow for a deep focus on current European and global key economic developments, while aiming for an interactive and insightful debate in the small and familiar set-up of a roundtable format. Introductory remarks on key topics will be followed by a debate with all the participants.
