

11 – 22 November 2013, COP19, Warsaw
Overview of EIB events and speaking commitments

Date	Time	Venue	Organizers	Title of Event	Description & Agenda
13.11	13:00-15:00	EU Pavilion, Room Brussels	European Commission	Scaling up climate finance: EU initiatives to support climate action in developing countries	The EU will present its experiences in mobilising climate finance to support mitigation and adaptation action in developing countries and illustrate key financing instruments. After an initial round of presentations, speakers will engage with the participants into a discussion on the role of private climate finance in scaling up climate finance by 2020.
14.11	15:00-18:00	Warsaw Stock Exchange	Carbon Disclosure Project (CDP)	Sustainable investment: exploring opportunities for resource efficiency and economic growth	This event will bring together leading investors and business figures to discuss how sustainable investment can be the driving force behind long-term economic growth. This event will bring together those who are creating economic value by prioritising resource efficiency and low carbon transition, and discuss how these opportunities can stimulate long-term and sustainable economic growth. Followed by drinks reception.
15.11	15:00-16:30	National Stadium	World Energy Council (WEC)	The Energy Trilemma – What is needed to balance the energy challenges?	How to build a sustainable global energy system in an increasingly complex and fast changing energy landscape (cfr: World Energy Trilemma 2012 and 2013 reports) eg: establishing clear role for supporting RD&D and deployments of clean technologies, push towards driving (green) trade liberalisation and Increase engagement with the financial community. This panel discussion will discuss both the policymakers' and business perspective.

16.11	16:30-18:30	Warsaw University	European Commission	Global Landscapes Forum: Climate Smart Agriculture	Climate Smart Agriculture and the sustainable, incl. low-emission intensification of agriculture.
17.11	13:00-14:00	Marriott Hotel	World Climate Summit (WCS), World Business Council for Sustainable Development (WBCSD)	Workshop I – Finance: Engaging with the Private Sector	How to engage with the private sector and how they can work with them to unlock finance for climate mitigation and adaptation. What market mechanisms and project finance structures can be deployed to unleash significant private sector financing.
17.11	14:00-15:00	Marriott Hotel	World Climate Summit (WCS), World Business Council for Sustainable Development (WBCSD)	Plenary III – Finance: The \$100Billion Question	Understanding and unlocking Public and Private funding for Climate mitigation and adaptation. Funds do exist for de-risking and developing the Green marketplace and attract private investors to funds such as the UNFCCC's Green Climate Fund.
17.11	15:30-16:30	Marriott Hotel	Carbon Trust at World Climate Summit (WCS), World Business Council for Sustainable Development (WBCSD)	Workshop IV - Game-changers: How innovation is driving sustainable business performance and economic success	How innovation can drive growth and wealth creation while decoupling it from environmental damage and its consequences (reducing carbon emissions and shifting economies to a much lower baseline of resource consumption).
17.11	15:00-17.30	Warsaw University	UN-REDD	Global Landscapes Forum: Landscapes in a Green Economy	'Landscapes of the future', private and public sector finance for landscapes (REDD+ finance from the Fund for REDD+ in Indonesia).
18.11	12:30-14:30	National Stadium	Centre for Clean Air Policy (CCAP)	Policy Dialogue Lunch on Eligibility Criteria for the Green Climate Fund	This policy lunch will convene Green Climate Fund (GCF) board members and senior negotiators for a roundtable dialogue on eligibility criteria for the GCF to use in selecting programs to support through the mitigation window and the private sector facility (PSF), as well as possibilities for linking the mitigation window and PSF beyond the "no objections" clause. Discussion will draw on key principles from early NAMA development through the Germany/UK NAMA Facility and concrete NAMA case studies from Latin America – to the extent that these can inform upcoming GCF decisions on funding criteria and design of the Fund.
18.11	18:00-20:00	EU	CDC Climate Research &	Public Finance Institutions and	While several OECD countries are undergoing a Low-

		Pavilion, Room Vilnius	OECD	the Low-Carbon Energy Transition: domestic investment and private sector "crowding-in" from 7 institutions from OECD countries	Carbon Energy Transition, OECD and CDC Climate Research looked into the contribution of public finance institutions (France's Caisse des Dépôts, Germany's KfW, Italy's Cassa de Depositi, etc.), to the financing of the transition. The side event will include a presentation of the report by OECD and CDC Climate Research, and will be followed by a panel discussion with experts from public finances institutions.
18.11	15:00-16:30	National Stadium	African Development Bank Group	Accelerating Green Growth in Africa: the role of the African Development Bank and regional institutions	Green Growth in Africa seeks to maximize efficient resources use & ensures resilient-low development. A recent AfDB report titled 'Towards Green Growth in Africa' highlights the challenges 21st century presents for Africa. The event will discuss these challenges and the means to address them.
19.11	14:45-16:00	Hotel Sofitel	UN Global Compact	Caring for Climate Business Forum Innovation: "Partnerships for Climate Action"	This session will examine the social and financial benefits and added value of partnerships on climate change. It will discuss some of the key factors that make a partnership successful – both in terms of its functioning as well as of its impact.

20.11	13:00-15:30	National Stadium	UN Global Compact, UNEP, UNFCCC	Caring for Climate High-Level Business Meeting	The second day of the Forum will present findings and outcomes from the first day at a high-level roundtable meeting that will take place at the official COP19/CMP9 venue. This high-level business meeting is by invitation only and is open to Caring for Climate chief and senior executives as well as high-level government representatives including Chairs of relevant institutions established under the UNFCCC.
20.11	14:30-15:30	InterContinental Hotel	Climate Action, UNEP	Sustainable Innovation Forum: Partnerships that make a difference: How can collaboration speed up the transformation to a green economy?	How can partnerships and cross-sectoral collaboration help catalyse green growth? How can we mobilise capital for climate smart development? How can we best engage the C-suite to ensure corporate carbon management? What can we learn from visionary - and failed – projects, looking in particular at natural resource management? What are the best models of public private partnership? How can we ensure private “cooperation” in developing nations doesn’t come with ‘strings attached’?
20.11	15:30-15:40	InterContinental Hotel	Climate Action, UNEP	Sustainable Innovation Forum: Climate Leader Insight	EIB Presentation.
21.11	16:45-18:15	National Stadium	Fondazione Eni Enrico Mattei (FEEM) and Ca’ Foscari University	Costs and Benefits of Adaptation to Climate Change and the Sustainability of Public Finance in the EU	Investing in adaptation to climate change is urgent and necessary. This may appear in contrast with high deficits in some EU countries. Nonetheless, green tax reforms may reduce fiscal distortions and work pro-growth. Moreover, investing in adaptation can improve sustainability of public finance.
21.11	18:00-20:00	EU Pavilion (Room Vilnius)	CIREN, CDC-Climate, Institute for Advanced Sustainability Studies, Centre for European Policy Studies, Low-Carbon Society Research Network	Upgrading and scaling up climate finance in an adverse economic context	The event will review options for upgrading and scaling up climate finance to support low-carbon projects and policies in a context of tight public budget constraints and deleveraging of the banking system in many countries. There will be a dialogue between experts on the 'supply side' and 'demand side' of climate finance.

21.11	18:30-20:00	TBC	Conservation International	From negotiations to action on the ground - Promoting coherence on adaptation	The purpose of the side event is to provide an informal platform to explore how increased coherence on adaptation can be achieved and how cooperation between parties and stakeholders can be strengthened to support enhanced action on adaptation at all levels. A number of case studies will be presented in order to illustrate how global policies and mechanisms could support processes on regional, national and local levels.
22.11	13:00-15:00	EU Pavilion, Room Vilnius	European Environment Agency, European Commission	Europe Adapting to Climate Change	The EEA will present its latest reports on climate change impacts, vulnerability and adaptation in Europe as well as the European Climate Adaptation Platform (Climate-ADAPT). The European Commission will present the state of play and next steps regarding the EU adaptation strategy.
