

Translation - summary

To: Mr. Abdel-Rahman Salah El-Din
Chairman - NREA

dated: 29/7/2008

following our previous letter dated 22/7/2008, Ref. to your letter dated 9/7/2008 and its attached environmental form (Category B) concerning GEZ project.

After reviewing the form and the attached information, EEAA agree with the project as proposed, with the following conditions:

- Work within the specified coordinates
- The distribution of the turbines as presented
- Avoid the use of continuous alert lamps on top of the turbines but flashing ones as per the regulations of the Civil Aviation Authority
- The blades to be clearly painted (n black with white marks)
- comply with the noise levels as per annex 7 to the exec. reg. of law 4/1994, with periodical measurements of such levels.
- Prepare an environmental monitoring plan (to measure actual deviations from estimations presented in the EIA, negative impact on birds and analysis of the change in birds behavior after operation, effectiveness of remediation measures, demarcation of the critical turbines,)
- Consider the work-place environment and the health and safety of the workers as per annex 9 to the exec. reg. of law 4/1994
- Safe disposal of hazardous waste (used oil and grease, by selling it to designated agent as described in the form).
- Safe disposal of solid waste generated during construction by reusing it in filling and preparation of internal roads as described in the form.
- Comply with the periodical monitoring and keeping records in the environmental registry and make it available for any inspection.

EEAA
CEO
Dr. Mawaheb Aboul-Azm
