This infographic contains key figures from the 2021 Joint Report on Multilateral Development Banks’ Climate Finance. For purposes of greater transparency and consistency, 2021 figures report climate finance in all economies where the MDBs operate, with a breakdown by income level.

The report and infographic were prepared by the European Investment Bank, together with the African Development Bank, the Asian Development Bank, the Asian Infrastructure Investment Bank, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Inter-American Development Bank Group, the Islamic Development Bank, the New Development Bank and the World Bank Group.

The CEB and the NDB aim to report on the details of their climate finance (e.g., by region, sector and instrument) in future editions of the Joint Report, as they extend the application of the joint MDB methodologies. In the meantime, this year’s report only presents some aggregate data.

In 2021, NDB committed a total of US$ 509 million in climate finance, all of which was dedicated to climate mitigation activities in middle-income countries (26 percent of NDB’s total approvals excluding its COVID-19 emergency program loans).

The CEB, with a commitment of US$ 621 million in climate finance, is in the process of fully implementing the joint MDB methodology for climate finance tracking in its operations. In this report, the CEB’s 2021 figures are based on the MDB methodology but may be incomplete and therefore should be considered as conservative.

Detailed information on MDBs’ climate finance in 2021 is available at www.eib.org/mdbs-climate-finance
In 2021, the multilateral development banks (MDBs) listed below committed a total of a total of US$ 50,666 billion to low-income and middle-income economies and US$ 31,051 billion to high-income economies.

### Climate Finance Commitments by MDB

- **African Development Bank**
  - For low- and middle-income economies: US$ 2,429 million
  - For high-income economies: US$ 28,134 million

- **Asian Development Bank**
  - For low- and middle-income economies: US$ 4,766 million
  - For high-income economies: US$ 738 million

- **Asian Infrastructure Development Bank**
  - For low- and middle-income economies: US$ 2,746 million
  - For high-income economies: US$ 88 million

- **European Investment Bank**
  - For low- and middle-income economies: US$ 3,371 million
  - For high-income economies: US$ 28,134 million

- **Inter-American Development Bank**
  - For low- and middle-income economies: US$ 5,553 million
  - For high-income economies: US$ 8 million

- **Islamic Development Bank**
  - For low- and middle-income economies: US$ 684 million
  - For high-income economies: US$ 5 million

- **World Bank Group**
  - For low- and middle-income economies: US$ 7,989 million
  - For high-income economies: US$ 490 million

- **European Bank for Reconstruction and Development**
  - For low- and middle-income economies: US$ 6,577 million
  - For high-income economies: US$ 1,599 million

### Climate Finance by Region

#### Total MDB Climate Finance by Region (IN US$ MILLION)

- **East Asia and the Pacific**
  - US$ 12,763 million
- **Europe: EU**
  - US$ 7,956 million
- **Europe: Non-EU**
  - US$ 9,200 million
- **Central Asia**
  - US$ 9,200 million
- **Latin America and the Caribbean**
  - US$ 10,777 million
- **Middle East and North Africa**
  - US$ 4,088 million
- **South Asia**
  - US$ 8,159 million
- **Sub-Saharan Africa**
  - US$ 12,763 million
- **Multi-regional**
  - US$ 2,234 million

### Climate Finance by Instrument (IN US$ MILLION)

#### Total MDB Climate Finance by Instrument (IN US$ MILLION)

- **Policy-based financing**
  - US$ 4,259 million
- **Grant**
  - US$ 2,395 million
- **Equity**
  - US$ 1,449 million
- **Guarantee**
  - US$ 1,283 million
- **Results-based financing**
  - US$ 4,985 million
- **Institutional capacity support or technical assistance**
  - US$ 2,400 million
- **Collateral financing**
  - US$ 2,424 million
- **Intermediation**
  - US$ 2,666 million
- **Other**
  - US$ 176 million

### Climate Finance by Activity (IN US$ MILLION)

#### Total MDB Climate Finance by Activity (IN US$ MILLION)

- **Energy**
  - US$ 2,977 million
- **Industry, manufacturing and trade**
  - US$ 2,877 million
- **Transport**
  - US$ 977 million
- **Buildings, public installations and end-use technology (ICT) and digital technologies**
  - US$ 645 million
- **Other agricultural and ecological resources**
  - US$ 2,977 million
- **Crop and food production**
  - US$ 2,400 million
- **Other**
  - US$ 176 million

### Climate Finance and Co-finance (IN US$ MILLION)

#### MDB Climate Finance and Co-finance (IN US$ MILLION)

- **Low- and middle-income economies**
  - US$ 40,210 million
- **High-income economies**
  - US$ 31,051 million
- **Private**
  - US$ 10,456 million
- **Public**
  - US$ 29,754 million

*Geographical distribution of climate (co)finance is determined by project location.*
