

## Environmental and Social Data Sheet

### Overview

Project Name:	TTTECH AUTONOMOUS DRIVING RDI
Project Number:	2019-0098
Country:	Austria, Spain
Project Description:	Selected RDI activities for the development of advanced driver-assistance systems (ADAS), as well as software autonomous driving technologies.
EIA required:	no
Project included in Carbon Footprint Exercise <sup>1</sup> :	no

(details for projects included are provided in section: "EIB Carbon Footprint Exercise")

### Environmental and Social Assessment

#### Environmental Assessment

The project concerns the promoter's investments for RDI activities related to the development of advanced driver-assistance systems (ADAS), as well as autonomous driving technologies. The project is expected to have positive sustainability impact, as its outcomes are expected to contribute to improving the safety characteristics of vehicles

The project activities are not listed in any annexes of the Directive 2014/52/EU amending the EIA Directive 2011/92/EU and will be carried out in existing facilities already authorised that will not change their scope due to the project.

### Conclusions and Recommendations

In the light of the above, the proposed investments do not require any additional permits and fall within an already authorised scope. As such, the project is acceptable for Bank financing in environmental and social terms.

PJ/SQM/ECSO 01.02.2019

<sup>1</sup> Only projects that meet the scope of the Carbon Footprint Exercise, as defined in the EIB Carbon Footprint Methodologies, are included, provided estimated emissions exceed the methodology thresholds: 20,000 tonnes CO<sub>2</sub>e/year absolute (gross) or 20,000 tonnes CO<sub>2</sub>e/year relative (net) – both increases and savings.
