## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	LAHTI URBAN INFRASTRUCTURE
Project Number:	2013-0247
Country:	Finland
Project Description:	The Project co-financed investment programme of the Municipality of Lahti.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

The Project concerned the financing of multi-sectoral investment schemes forming part of the City of Lahti's four-year investment programme from 2013 to 2016. The project comprised some 32 small to medium sized schemes in the fields of municipal infrastructure, mobility-measures, education and sport, social and health infrastructure, civil protection (new building for the fire brigade and emergency services), energy and waste management.

The Promoter, City of Lahti has confirmed to be a competent and reliable promoter and has overseen the full respect of contractual obligations related to EIB environmental and social standards. All schemes were implemented in line with the requirements stipulated in their respective authorisations/permits. No significant environmental or social issues were reported.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the Promoter and monitoring undertaken by the EIB team that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
