Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: DUMFRIES AND GALLOWAY HOSPITAL PPP
Project Number: 2013-0472
Country: United Kingdom
Project Description: Construction of a new hospital for the population of Dumfries and Galloway in Scotland. The objective of this project is to provide high quality services to meet the needs of patients and to facilitate the delivery of clinical activity as close to home as possible, taking into account both the rurality and remoteness of Dumfries & Galloway.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

The project was subject to a full EIA, published on the promoter website. The assessment concluded that during construction there could be some effects that can combine to result in the perception of an impact of minor significance. The recommended mitigation measures were implemented by the promoter and the building contractor as per their Environmental and Social Management Plan and they minimised and sometimes eliminated the various minor expected impacts.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, site visits by the EIB team and inputs provided by Lenders' Advisors and others that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
