## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	<i>MIDDLE MUIR ONSHORE WIND FARM</i>
Project Number:	<i>2017-0446</i>
Country:	<i>UK</i>
Project Description:	<i>51 MW onshore wind farm located in Lanarkshire, Scotland, UK. A sub-operation of the Santander UK Renewable Energy Framework Loan (2013-0060).</i>

### Summary of Environmental and Social Assessment at Completion

#### **EIB notes the following key Environmental and Social outcomes at Project Completion.**

Based on the publicly available information shared by the promoter on the project's specific website (<https://www.banksgroup.co.uk/projects/renewables/middle-muir>), the main construction work for the wind farm began in April 2017, and construction work was completed in December 2018. The wind farm is now fully operational.

The Bank reasonably believes that the project has been implemented in line with the technical description, based on the information in the public domain.

#### **Summary opinion of Environmental and Social aspects at completion:**

The EIB is not in a position to make any further assessment on the environmental and social aspects at completion, due to the lack of information.
