Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	FLORIM INNOVATIVE CERAMICS
Project Number:	2017-0723
Country:	ITALY
Project Description:	The project concerned the acquisition and installation in two different locations of Advanced Manufacturing Technology (AMT), machinery and equipment, logistic equipment and plant automation systems for the production of large ceramic slabs and the subsequent cut-to-size. The project has covered the period 2017-2018 and has been carried out in Mordano (province of Bologna, Emilia Romagna region) and Fiorano (province of Modena, Emilia Romagna region). Machinery and equipment have been installed inside two new buildings which were partly under construction at the time of the appraisal, however not part of the financed project.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion.

EIB is of the opinion based on reports from the promoter during the implementation that the Project has been implemented in line with the EIB Environmental and Social Standards, applicable at the time of appraisal.
