Project Number: 2020-0205  
Country: Austria  
Project Description: The project concerns the company's development of innovative Artificial Intelligence supported Natural Language Processing technologies and applications. It covers R&D activities as well operational investments supporting the company's growth.

EIA required: no

Project included in Carbon Footprint Exercise<sup>1</sup>: no

### Environmental and Social Assessment

#### Environmental Assessment

The project concerns the promoter's investments for the development of innovative Artificial Intelligence supported Natural Language Processing technologies and applications, and the project activities are not expected to have any significant environmental impact.

RDI activities as such are not listed in any annexes of the Directive 2014/52/EU amending the EIA Directive 2011/92/EU and the project will be carried out in existing facilities already authorised that will not change their scope due to the project.

### Conclusions and Recommendations

In the light of the above, the proposed investments do not require any additional permits and fall within an already authorised scope. As such, the project is acceptable for Bank financing in environmental and social terms

---

<sup>1</sup> Only projects that meet the scope of the Carbon Footprint Exercise, as defined in the EIB Carbon Footprint Methodologies, are included, provided estimated emissions exceed the methodology thresholds: 20,000 tonnes CO<sub>2</sub>e/year absolute (gross) or 20,000 tonnes CO<sub>2</sub>e/year relative (net) – both increases and savings.
