Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	DRAEGERWERK MEDICAL TECHNOLOGY RDI
Project Number:	20160107
Country:	Germany
Project Description:	RDI investments related to medical technology

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

The project concerned investments in research and development that have been carried out in existing facilities without changing their already authorised scope. An Environmental Impact Assessment (EIA) was therefore not required by EIA Directive 2011/92/EU as amended by Directive 2014/52/EU. The Promoter has an integrated environmental and quality management system and effective operating procedures in place which are in line with best industry standards. No significant environment or social issues were noted during project implementation.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
