Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	SOFTWARE AG INTERNET OF THINGS RDI
Project Number:	2016-0821
Country:	Germany / Bulgaria/ Regional – EU countries
Project Description:	The project concerned the RDI activities of Software AG in relation to new software products supporting the digitalisation of business processes, to applications related to Internet of Things (IoT) as well as the management of big data. The RDI project was carried out as planned during 2017 to 2019, mainly in Germany and Bulgaria.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

The proposed investments concerned RDI activities for software development, which were carried out within existing own or rented office type facilities already used for similar activities.

Therefore the project activities did not fall under Annexes I and II of the EU Directive 2014/52/EU amending the EIA Directive 2011/92/EU, and were therefore not subject to mandatory Environmental Impact Assessments.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
