Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	Stockholm Municipal Investments
Project Number:	2014 0185
Country:	Sweden
Project Description:	The project concerns the financing of around sixty small to medium sized investment schemes in the fields of municipal housing, education, and childcare as well as in other municipal infrastructure (such as transportation and water). The project forms part of the city of Stockholm's four-year investment programme from 2014 to 2017.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

This operation comprise allocations to 105 projects in six different sectors, with a majority of projects in reconstruction of housing, new housing and biking lanes.

An EIA has been carried out for one sustainable urban development project on partly contaminated land that required remediation. Related risks and mitigation measures for the construction stage were identified in the EIA report, which was accompanied by environmental and sustainability requirements for the development.

No significant environment or social issues were noted during the implementation of this operation.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
