Luxembourg, 14 December 2020

Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: 3D PRINTING TECHNOLOGY
Project Number: 2017-0193
Country: Belgium
Project Description: The loan underlying investments included the operative expenditures in Research, Development and Innovation and to a minor extent R&D capex investments carried out in the three company's divisions, namely Manufacturing, Medical and Software in the period 2017-2019.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

RDI activities on 3D printing are not listed in any annexes of the EIA Directive 2014/52/EU amending the EIA Directive 2011/92/EU. As such, the proposed investment programme has not been subject to an EIA.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during the project's implementation that the Project has been implemented in line with the EIB Environmental and Social Standards, applicable at the time of appraisal.
