

## EFSI Operation Scoreboard<sup>1</sup>

<b>PROJECT PRESENTATION</b>	
<b><u>Project name</u></b>	WINDLANDKRAFT GREEN ENERGY LOAN
<b><u>Promoter and financial intermediary</u></b>	PRIVATE ENTITY(IES)
<b><u>Country of implementation</u></b>	Austria
<b><u>Summary project description</u></b>	<p>The project comprises the implementation and operation of two wind farms in Austria, with a combined grid-connected capacity of 51.5 MW in total:</p> <ul style="list-style-type: none"> <li>- Wind farm Obersiebenbrunn II-A: 2 turbines, 6.6 MW of grid-connected capacity; and</li> <li>- Wind farm Engelhartstetten: 13 turbines, 44.9 MW of grid-connected capacity.</li> </ul>

<sup>1</sup> This Scoreboard of indicators reflects the information presented to the EFSI Investment Committee (IC) for its decision on the use of the EU guarantee for this operation. Therefore, the document does not take into account possible developments that could have occurred after this decision.

Parts of this document that fall under the exceptions for disclosure defined by the EIB Group Transparency Policy, notably under articles 5.5 (protection of commercial interests) and 5.6 (protection of the Bank's internal decision-making process), have been replaced by the symbol [...].

## PROJECT PILLAR ASSESSMENT

### Pillar 1

Contribution to EU policy	High
<b>Cross-cutting objectives</b>	
Climate Action	100.00%
<b>EFSI</b>	
Contribution to EFSI	100.00%
EFSI: Development of the energy sector in accordance with the Energy Union priorities	100.00%
Expansion of the use or supply of renewable energy	100.00%

### Pillar 2

Quality and soundness of the project	Acceptable
1. Growth	[...]
2. Promoter capabilities	[...]
3. Sustainability	[...]
4. Employment	[...]

This pillar evaluates the quality and soundness of the operation. This pillar is composed of up to four indicators, as relevant, among which:

- (i) "Growth" i.e. for example and where relevant the economic rate of return ('ERR'), which considers the project's socioeconomic costs and benefits, including its spillover effects;
- (ii) "Promoter capabilities" i.e. the capacity of the promoter/intermediary to implement the project and create the expected impact at the [final] beneficiary level;
- (iii) "Sustainability" i.e. environmental and social sustainability<sup>2</sup>;
- (iv) "Employment" i.e. the project's direct employment effect;
- (v) "Increasing access to finance and improving financing conditions including for final beneficiaries".

### Pillar 3

EIB Technical and financial contribution to the project	Moderate
1. Financial contribution	[...]
2. Financial facilitation	[...]
3. Advice	[...]

This pillar measures the EIB's particular contribution to the project and its financing scheme in the form of financial and non-financial benefits which go beyond what commercial players would normally be able to offer. This dimension of value added is assessed through up to three indicators:

- (i) "Financial Contribution" i.e. improving the counterpart's funding terms compared to market sources of finance (interest rate reduction and/or longer lending tenor);
- (ii) "Financial Facilitation" i.e. helping to attract private financiers (for example through positive signaling effects), promoting synergies in co-financing with other public sources of funds including National Promotional Banks or EU financial instruments;
- (iii) "Technical Contribution and Advice" i.e. providing advice with a view to optimizing the financing package (financial structuring), or technical advisory services in the form of expert input / knowledge transfer - provided in-house by the EIB or in the form of assignments to external consultants - to facilitate the preparation or implementation of a project.

<sup>2</sup> For additional information on the EIB's assessment of the project's environmental and social aspects, please refer to the project's Environmental and Social Data Sheet (ESDS) published on the EIB website.

## **Pillar 4 - Complementary indicators**

### ***Additionality***

In line with the EFSI objective to the development of the energy sector in accordance with the EU priorities and namely, the expansion of the use or supply of renewable energy, the operation is addressing an anticipated gap in terms of availability of affordable and adequate long-term financing for wind farms in Austria. This will contribute to the transition of electricity generation in Austria away from fossil fuels and contribute to Austrian and EU climate transition objectives. As a renewable energy project, the operation will fully contribute to the Climate Action objectives of the EIB.

The onshore wind project addresses the market failure of negative environmental externalities, through the reduction of carbon and air pollution. Low-carbon power and heat projects reduce carbon and air pollution externalities.

The operation is expected to fall under the EIB Special Activities category, in particular taking into account that the envisaged EIB financing with EFSI support will be a non-recourse project financing. The EIB would not be able to provide such type of financing support during the period in which the EU guarantee can be used, or not to the same extent, without EFSI.

The availability of large and affordable long-term debt financing from the EIB will contribute to the operation's viability since the EIB, acting as a cornerstone financier of this project, will contribute to the crowding-in of other lenders into the financing structure and to a timely financial close, in particular given the uncertainties created by the Covid-19 pandemic.

## Set of indicators related to the macroeconomic environment

### Austria - Economic environment

#### Economic Performance

	AT 2018	EU 2018	US 2018	AT 2001-2007
GDP per capita (EUR, PPS)	39,299.90	30,935.11	43,569.11	37,529.56
GDP growth (%)	2.73	1.97	2.86	2.29
Potential GDP growth (%)	1.79	1.60	2.24	2.20
Output gap (% of potential GDP)	0.99	0.62	0.74	0.04
Unemployment Rate (%)	4.60	6.60	3.90	4.93
Unemployment Rate (%) - Y/Y change (% points)	-0.80	-0.60	-0.20	0.09
Bank-interest rates to non-financial corporations (%)	1.24	1.26	--	3.90
Bank-interest rates to non-financial corporations (%) - Y/Y change (% points)	-0.14	-0.06	--	-0.21
Investment rate (GFCF as % of GDP) - Total	23.89	20.54	20.84	23.51
Investment rate (GFCF as % of GDP) - Public	2.98	2.86	3.31	2.67
Investment rate (GFCF as % of GDP) - Private	20.92	17.68	17.53	20.84

#### Energy

	2014	2015	2016	2017	EU (latest available)
Energy consumption from renewables (%)	33.20	32.77	33.04	32.56	17.53
Energy consumption from renewables - distance to EU 2020 target (%)	0.80	1.23	0.96	1.44	2.47
Energy dependence (%)	65.90	--	--	--	53.50
Primary energy consumption (consumption in 2005 =100)	94.70	97.30	98.50	--	90.00
Energy intensity of the Economy (kg of oil equivalent per 1 000 EUR)	--	--	--	--	141.83
Primary energy consumption (Million Tonnes of Oil Equivalent)	30.60	31.50	31.80	--	1,542.70
Primary energy consumption (Million Tonnes of Oil Equivalent) - distance to EU 2020 target	-0.90	0.00	0.30	--	59.70

#### General Sector Indicators

	2014	2015	2016	2017	EU (latest available)
Value added in Electricity, gas, steam and air conditioning supply (% of total VA)	1.95	1.85	1.89	1.89	1.82
Employment in Electricity, gas, steam and air conditioning supply (% of total employment)	0.63	0.61	0.61	0.59	0.54

- Country average for "GDP per capita (EUR, PPS)" is calculated in real terms

- EU value for "Bank-interest rates to non-financial cooperations" corresponds to Euro Area average; Country average is the simple average between 2003 and 2007

- The EU value is displayed as the value in the year that corresponds to the latest value of the indicator in a particular country

### Other indicators<sup>3</sup>

Key project characteristics	Expected value at PCR
Start of works	01.10.2021
End of works	31.12.2022
Project investment cost [MEUR]	87.00 MEUR
EIB/EFSI eligible investment mobilised [MEUR]	84.70 MEUR
External EFSI multiplier	1.96
External EIB (non-EFSI) multiplier	
Amount of private financing [MEUR]	43.77 MEUR
Quick start (% of expenditure during 2015-2018) [%]	
Co-financing with national promotional banks [MEUR]	0.00 MEUR
Co-financing with structural funds (ESIF) [MEUR]	0.00 MEUR
Co-financing with other EU instruments (i.e. Horizon 2020, Connecting Europe Facility, etc) [MEUR]	
Energy efficiencies realised [MWh/a]	0.00 MWh/a
Climate Action indicator	100.00% Mitigation - Renewable Energy (transversal)
Employment during construction - temporary jobs [person years]	124 person years
Employment during operation - new permanent jobs [FTE]	3 FTE

<sup>3</sup> For additional information on the EIB's assessment of the project's environmental and social aspects, please refer to the project's Environmental and Social Data Sheet (ESDS) published on the EIB website. The abbreviation PCR stands for Project Completion Report. If applicable, a difference between the amount of Project investment costs and EIB/EFSI eligible investment mobilized might derive from the fluctuation of the underlying exchange rate.
