## Environmental and Social Completion Sheet (ESCS)<sup>1</sup>

### Overview

Project Name:	Flood Prevention and Protection
Project Number:	20110186
Country:	Turkey
Project Description:	Supporting the flood prevention works of Turkey through the General Directorate of State Hydraulic Works (DSI), an affiliated institution of the Ministry of Forestry and Hydraulic Works (MoFHW).

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

Each sub-project was subject to an individual screening exercise that established the extent of the impact and the appropriate mitigation measures. The promoter has regularly reported to EIB on their implementation. The Promoter and the Competent Authorities confirmed that none of the implemented sub-projects required EIAs and they did not require land acquisition.

The main outputs / outcomes of the Project have remained as they were designed at the appraisal stage and calculated following proportional approach:

Result	At Appraisal	At Completion
Number of subprojects	508	427
Population served [inhabitants]	97,000	81,533(*)
Surface protected [ha]	100,000	84,055(*)
Employment during construction	2,100	1,765(*)
Employment during operation	55	46(*)

(\*) assessed as a proportion of the number of subprojects finally being implemented

Promoter's implementation with regard to health and safety measures reported no occupational accidents at the project site.

Initial Environmental and social undertakings were respected throughout implementation.

<sup>1</sup> The template is for ILs and FLs
