

## Environmental and Social Data Sheet

### Overview

Project Name:	KONTAKT IO (EGF VD)
Project Number:	2021-0202
Country:	Poland
Project Description:	Kontakt.io is an IoT company operating in the segment of providing indoor IoT and location data insights for its clients.
EIA required:	no
Project included in Carbon Footprint Exercise <sup>1</sup> :	no

### Environmental and Social Assessment

#### Environmental Assessment

The investment primarily concerns the company's research and development for the further innovation of its software technologies in the area of real time location services, related hardware developments, as well as sales and marketing. Such activities are not listed in any of the annexes of the Environmental Impact Assessment (EIA) Directive 2014/52/EU amending the Directive 2011/92/EU.

#### Other Environmental and Social Aspects

The company's products have positive environmental and social effects in particular to modern office workspaces, through the monitoring of environmental conditions (e.g. air quality) for improved health and safety, as well as to hospital environments, improving asset management, workplace safety and improvement workflows in hospitals.

The company's proprietary hardware is certified according to the respective regional health, safety, and environmental protection standards, in particular the European CE mark (including compliance with the RoHS Directive) and FCC for the United States.

### Conclusions and Recommendations

In the light of the above, the project is acceptable for EIB financing in E&S terms.

---

<sup>1</sup> Only projects that meet the scope of the Carbon Footprint Exercise, as defined in the EIB Carbon Footprint Methodologies, are included, provided estimated emissions exceed the methodology thresholds: 20,000 tonnes CO<sub>2</sub>e/year absolute (gross) or 20,000 tonnes CO<sub>2</sub>e/year relative (net) – both increases and savings.
