## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name: KTM MOTORCYCLE RDI  
Project Number: 2018-0157  
Country: Austria  
Project Description: The project concerned the promoter's investments in Research, Development and Innovation (RDI) in the field of (i) electrical propulsion systems, (ii) cooperative intelligent transport systems, (iii) lightweight design, (iv) advanced materials and technologies for motorcycles as well as (v) future urban mobility concepts. The investments have been carried out primarily in the promoter's R&D centre located in Mattighofen (Austria) in the period 2018-2020.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The project concerned RDI activities carried out in existing and authorized R&D facilities. The project did not fall under any of the Annexes of the EIA Directive 2011/92/EU as amended by the Directive 2014/52/EU. As such, the project has not been subject to an EIA or EIA screening. No significant environmental or social issues were noted.

The project focused on a number of technological improvements, including increased motorcycle electrification, reduced fuel consumption and emissions, improved safety and connectivity of vehicles. Thus, the project activities have led to positive environmental and safety external benefits.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion, based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
