Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	SCM GROUP WOODWORKING MACHINERY RDI
Project Number:	2017-0268
Country:	ITALY
Project Description:	The project concerned SCM Group's investments in research, development and innovation (RDI) in its different divisions. The project contributed to increase the promoter's knowledge and expertise in the fields of machinery and systems to process a wide variety of materials such as wood, plastic, glass, stone, metal and composites, mechanical and electric components, as well as to improve the internal manufacturing processes. The activities have been carried out in Italy over the period between 2017 and 2020.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The project activities did not fall under the Annexes of the EIA Directive 2014/52/EU amending the

Directive 2011/92/EU;

The project generated positive environmental externalities by developing new and more efficient machine platforms, with improved energy efficiency and performance, higher material efficiency and capable of reducing material waste.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during the project implementation that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
