Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	MARPOSS MEASUREMENT SYSTEMS RDI
Project Number:	2017-0659
Country:	ITALY
Project Description:	The project concerned the promoter's investments in Research, Development and Innovation (RDI) in the field of (i) Flexible measurement technology, (ii) Cyber-physical systems for machine tools, (iii) Software for industry 4.0 and (iv) Measurement equipment applied to electro-mobility. The project included also, partly, the installation of AMT (Advanced Manufacturing Technology) in some of the promoter's manufacturing facilities. The project has been carried out primarily at the promoter's headquarters located in Bentivoglio (Bologna, Emilia Romagna region) in the period 2018-2020.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion:

The project's activities are not listed in any annexes of the EIA Directive 2014/52/EU amending the EIA Directive 2011/92/EU; as such, the project has not been subject to the EIA or EIA screening.

The activities and investments have been carried out in existing facilities already authorised that has not changed their scope due to the project. Hence, the project does not require any additional authorisations or modification of existing permits.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during the project implementation that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
