## Environmental and Social Completion Sheet (ESCS)<sup>1</sup>

### Overview

Project Name:	CANATU (MGF)
Project Number:	2015-0781
Country:	FINLAND
Project Description	Financing of the promoter's investments to ramp-up the production of highly innovative flexible displays.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The project has been carried out in existing facilities that will not change their already authorised scope; as such no components of the financed programme fell under Annex I or II of the Directive 2011/92/EU and required an Environmental Impact Assessment (EIA).

The installation of machinery and equipment for the capacity expansion did not require an update of the existing environmental authorisations.

Environmental aspects are well embedded into the promoter's management procedures. The promoter is ISO 9001:2008 certified.

### Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
