## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	ORION CORE THERAPEUTIC RDI
Project Number:	20180275
Country:	Finland
Project Description:	RDI investments in core therapeutic areas in 2018-2020

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

No significant environmental or social issues were noted. The project concerned investments in research and development carried out in existing facilities already authorised for that purpose and did not fall under the EIA directive 2011/92/EU as amended by the directive 2014/52/EU. The use of animals for scientific research purposes within the scope of the project, if applicable, has been conducted in compliance with Directive 2010/63/EU. Overall, the project has been assessed as acceptable, having no adverse impact on the environment.

The research activities undertaken in the project address unmet medical needs in order to prevent and treat disease in oncology, neurology and rare disease therapeutic areas, with a potentially significant social benefit.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
