## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name: Rovaniemi Urban Infrastructure  
Project Number: 20150407  
Country: Finland  
Project Description: The project concerned the financing of multi-sectoral investment schemes forming part of the Municipality's six-year investment programme from 2015 to 2020.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following key Environmental and Social outcomes at Project Completion.**

The project comprised of 31 small to medium sized schemes in the fields of municipal infrastructure, education, water treatment, energy, ICT and transport and will benefit the City of Rovaniemi in Northern Finland.

Given the relative small size of the individual schemes and the nature of the sectors concerned, most of the schemes were not foreseen to have significant measurable environmental impacts.

#### **Summary opinion of Environmental and Social aspects at completion:**

There were no EIA's (Environmental Impact Assessment) or AA's (Appropriate Assessment) required for this operation.

EIB is of the opinion based on reports from the promoter during Construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
