Overview

Project Name:	UK Power Networks - RIIO-ED1 Networks Upgrade
Project Number:	2014-0659
Country:	United Kingdom
Project Description:	The Project concerned the upgrade and reinforcement of the electricity distribution networks of three licensed Distribution Network Operators - LPN, EPN, SPN - serving respectively London, the East of England, and the South East of England.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The Project was an investment programme that consisted of a large number of schemes having operating voltage from 132 kV down to 230 V. Some schemes fell under Annex II of the EIA Directive (2011/92/EU) for which the competent authorities at the planning stage decided that no EIAs were required.

The Promoter did not report any environmental or social issues during the implementation of the Project.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the Promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
