| EIA required: | no |
| Project included in Carbon Footprint Exercise ¹ : | no |

Environmental and Social Assessment

Environmental Assessment

The project activities are not listed in any annexes of the EIA Directive 2011/92/EU amended by Directive 2014/52/EU and will be carried out in existing facilities that will not change their scope due to the project.

Part of the project has a sustainability focus as it concerns improvements of energy efficiency in the developed products and solutions.

Other Environmental and Social Aspects

Environmental and social sustainability is embedded into the company's management procedures; all promoter's major manufacturing and R&D plants are certified according to the ISO 14001 standard to prevent and control environmental risks. The Promoter's Occupational Health and Safety (OH&S) system is based on the ISO 45001 standard.

Conclusions and Recommendations

In the light of the above, the project is acceptable for Bank financing in environmental and social terms.

¹ Only projects that meet the scope of the Carbon Footprint Exercise, as defined in the EIB Carbon Footprint Methodologies, are included, provided estimated emissions exceed the methodology thresholds: 20,000 tonnes CO₂e/year absolute (gross) or 20,000 tonnes CO₂e/year relative (net) – both increases and savings.
