## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name: ALD CLEAN FLEET RENEWAL  
 Project Number: 2017-0489  
 Country: France  
 Project Description: The project is part of the Cleaner Transport Facility joint initiative (CTF) and consists of the financing of a fleet of clean vehicles including Hybrid and Electric Vehicles. The deployment of the fleet will be carried out across EU countries including France, Germany, Italy, Spain, Belgium and Netherland.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The project does not fall under either Annex I or Annex II of the EU EIA Directive.

The new vehicles are more fuel efficient and lower emissions compared to the average vehicles fleet it replaces. The vehicles are type approved and compliant with the emissions Regulations for Light Duty Vehicles (EC) No 443/2009, No 333/2014.

In terms of greenhouse gas emissions the new vehicles are very low CO<sub>2</sub> emitting and have also lower emissions of pollutants (eg. NO<sub>x</sub>, particle matters) and contribute to meet air quality standards as set out by the European Union (EU).

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the promoter during the fleet deployment period that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
