Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	LYCEES APPRENTISSAGE REGION PACA
Project Number:	2014-0484
Country:	FRANCE
Project Description:	The Project comprised the new construction or renovation of 19 upper-secondary schools and one centre for special needs education.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

Based on the documentation provided by the promoter, none of the sub-projects required an EIA. No environmental or social issues were noted.

Overall, the rehabilitation and extension of the outdated facilities improved hygiene and safety conditions and allowed the promoter to introduce better teaching conditions. The modernised buildings increased the overall energy efficiency of the school buildings concerned. By offering accessible and universal education to the young population, the Project also includes beneficial elements in terms of social cohesion and protection.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
