### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

Based on the documentation provided by the Promoter, no EIAs were required by the local authority for the sub-projects included in this operation. The investments financed by this Project were planned, designed and implemented in accordance with the energy and environmental standards set by the Région Midi-Pyrénées for construction, which, at the time of appraisal, were higher than the standards requested by French law.

The Project supported the upgrade and modernisation of 65% of the public upper secondary education facilities in the Région Midi-Pyrénées. By improving the learning conditions for students and working conditions for teachers, the Project has promoted the provision of good quality of education in the Region.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the Promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
