## Environmental and Social Completion Sheet (ESCS)<sup>1</sup>

### Overview

Project Name:	HANSAMATRIX (EGFF)
Project Number:	2018-0209
Country:	Latvia
Project Description:	HansaMatrix is a Latvian electronics manufacturing company active in the engineering and electronics sectors. The Company designs, produces and assembles electronic printed circuit boards (PCB's) and other electronic components for segments such as: Data Networks (data routers, GSM base station infrastructure, optical switches etc); Industrial products (e.g. communication headsets, smart grid, remote controls etc.); Internet of Things (IoT) (e.g. hardware of IoT sensors and nodes) and others (e.g., displays, scientific and medical equipment etc.). The Company possesses modern production and engineering facilities and is seeking to further expand its operations. It is serving European business customers, mostly in the Baltics and Northern Europe.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

**Project description at appraisal:** At appraisal included the following components: (i) the promoter's RDI activities in the field of manufacturing of electronic devices and optical devices, (ii) investments in manufacturing equipment in order to increase the company's manufacturing capacities in electronic manufacturing services (EMS) and (iii) investments in utilities and infrastructure for a new warehouse building.

**At project completion:** Not all activities have been implemented or fully implemented. Mainly R&D activities and investment in new equipment have been implemented (components i and ii). The investment related to the new warehouse building has not been implemented.

No significant environmental and social issues in relation with the current project have been noted.

#### Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during implementation and at completion that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
