Environmental and Social Completion Sheet (ESCS)

Overview

Project Name: NOMAGIC (EGF VD)

Project Number: 2021-0020

Country: Poland

Project Description: Nomagic is a Polish robotics company specialised in pick & place robots primarily used in warehouses. The company offers an artificial intelligence enabled robotic arm that picks, inspects, analyses and places products.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The project included R&D activities for the development of robotics software and solutions for logistics applications, as well as investments in related prototyping hardware.

The financed activities have been carried out in already-authorized and existing facilities that did not change their scope due to the project.

No significant environmental and social issues in relation with the current project have been noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during implementation and at completion that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
