Environmental and Social Completion Sheet (ESCS)

Overview

| | |
|----------------------|--|
| Project Name: | MAZOWIECKIE REGIONAL INFRASTRUCTURE |
| Project Number: | 2017-0425 |
| Country: | Poland |
| Project Description: | Part-financing of a multi-sector investment programme in the Mazowieckie Region. |

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The operation, structured as a Framework Loan, aimed to support the modernisation of regional roads and buildings included in the investment programme of the Mazowieckie region. The operation contributed to the implementation of the Regional Development Strategy of the Mazowieckie region till 2030, in particular to the strengthening of territorial cohesion.

80 small schemes were implemented as part of the Project. 39 of them concerned the extension and reconstruction of regional roads, including the addition of pedestrian and bicycle tracks, bus bays and improved drainage. 35 schemes concerned healthcare facilities, whereby buildings were reconstructed, modernised, extended, and fitted with new equipment and IT systems. 6 schemes concerned cultural heritage (including the modernisation and conservation of historical buildings).

The Promoter confirmed that environmental permits were issued for schemes requiring such permits, and that none of the schemes had any impact on protected areas (including Natura 2000).

No significant environment or social issues were noted during monitoring of the Project.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
