## Environmental and Social Completion Sheet (ESCS)<sup>1</sup>

### Overview

|                      |  |
|----------------------|--|
| Project Name:        | SCHOOL UPGRADE INVESTMENT PLAN FRAMEWORK LOAN  |
| Project Number:      | 2014-0506  |
| Country:             | Italy  |
| Project Description: | Framework loan for safety improvement, energy efficiency and upgrade of primary and secondary education infrastructure in Italy. |

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

The Project comprised around 4 000 investments across all 20 of Italy's regions. The investments ranged from the construction of new schools, extensions, reconstructions, renovation and rehabilitation of existing schools. In many cases energy efficiency measures were included as well as modifications to the building systems to create more comfortable internal environments. A number of schools were also improved and upgraded to current regulations for various safety requirements including fire and anti-seismic safety.

The Promoter confirmed during the implementation that none of the investments had required the need for an EIA. The Promoter confirmed that there were no significant environmental or social issues encountered during implementation.

#### **Summary opinion of Environmental and Social aspects at completion:**

The EIB is of the opinion based on reports from the promoter, site visits performed by the EIB team and/or inputs provided by consultants employed by the EIB post-construction that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
