Environmental and Social Completion Sheet (ESCS)¹

Overview

Project Name:	BRATISLAVA REGIONAL INFRASTRUCTURE II
Project Number:	2016-0843
Country:	Slovakia
Project Description:	A multi-sectorial investment programme aimed at improving regional infrastructure of Bratislava Region.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The Project consisted of investments in public transport infrastructure, as well as renovation and (re)construction of public buildings under the 2014-2020 Economic and Social Development Programme of the Bratislava Region. None of the schemes was subject to an Environmental Impact Assessment and no Natura 2000 sites were affected by the Project.

No significant environment or social issues were noted, and the net environmental and social impact of the programme is deemed positive. The Project generated social benefits through modernisation of educational, cultural, social and health facilities as well as improvements, reconstruction, and safety measures in roads and cycling routes.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
