Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	HIGH ENERGY PERFORMING PUBLIC BUILDINGS
Project Number:	20190439
Country:	Sweden
Project Description:	The proposed project consists of the construction of seven nearly-zero energy (NZEB) buildings in the cities of Stockholm, Uppsala and Solna in Sweden.

Summary of Environmental and Social Assessment at Completion

EIB notes the following key Environmental and Social outcomes at Project Completion.

The supported investments consisted of seven NZEB office buildings in five sub-projects in Stockholm, Uppsala and Solna in Sweden. One of the sub-projects was a complete refurbishment. These investments led to a reduction of the energy consumption of the buildings when compared to the minimum mandatory requirements in the Swedish Building code and subsequent reduction of CO₂ emissions.

No significant environmental or social issues were noted

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
