## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	LABORATOIRES THEA INNOVATION PROGRAMME
Project Number:	2020-0234
Country:	France
Project Description:	The project will support the Company's R&D investments for the development of new molecules, formulations and innovative drug delivery systems for ophthalmic use.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

No significant environment or social issues were noted. The project concerned investments in research and development activities carried out in existing facilities already authorised for that purpose. Overall, the project has been assessed as good, having no adverse impact on the environment.

In addition, due to the nature of the activity carried out by the Promoter and the results obtained (such as new formulations for improved treatments, improved manufacturing processes, etc.), the Project is expected to generate positive societal impact considering the public health needs and economic impact of conditions in the therapeutic areas of ophthalmology.

#### **Summary opinion of Environmental and Social aspects at completion:**

EIB is of the opinion based on reports from the Promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
