## Environmental and Social Completion Sheet (ESCS)

### Overview

Project Name:	MEDNEO (EGFF)
Project Number:	2017-0420
Country:	Germany
Project Description:	The Project concerns Medneo's installation of state-of-the-art diagnostic imaging equipment (CET and MRI) into existing public or private hospitals and centres over the period 2017-2021.

### Summary of Environmental and Social Assessment at Completion

**EIB notes the following Environmental and Social performance and key outcomes at Project Completion.**

No significant environmental issues were noted. An EIA as foreseen under Directive 2014/52/EU amending the EIA Directive 2011/92/EU was not required for the type of Project carried out by the Promoter, focused on installing diagnostic imaging equipment. Overall, the Project has been assessed as good, having no adverse impact on the environment.

In addition, due to the nature of the activity carried out by the Promoter and the number of centres opened and in operation, the Project has generated positive societal impact considering the availability of additional diagnostic services both for the public as well as the private healthcare markets.

### Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
