Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	ONS MIDDELBAAR ONDERWIJS
Project Number:	2016-0199
Country:	The Netherlands
Project Description:	The project finances the new build of four school campuses and the reconstruction, renovation and/or extension of six existing schools. All are secondary schools located in the Dutch province of Noord Brabant. All new schools replaced facilities that are no longer fit for purpose. Consolidation will occur as the result of school mergers. No increase in overall enrolment capacity is foreseen. The project investments are heavily focused on increasing energy efficiency and bringing up to norms out of date school facilities.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The project comprised new construction and renovation of school buildings.

The Promoter did not report that any of the Project components were subject to an EIA. None of the components are located within Natura 2000 sites.

For three new schools, based on the preliminary results, the energy performance of Class A+++ or Class A++++ in accordance with the Dutch rating system is expected. Other new schools and renovations are assumed to comply with the requirements of national legislation.

The Project made improvements to the internal teaching and learning environment in several of the affected locations.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the Promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
