Environmental and Social Completion Sheet (ESCS)

Overview

| | |
|----------------------|---|
| Project Name: | STOCKHOLM ALBANO CAMPUS |
| Project Number: | 2020-0185 |
| Country: | Sweden |
| Project Description: | The project concerned the construction of the core building complex of the new Albano Campus composed of four parts called "houses" which provide space for teaching premises, laboratories, offices and ancillary services. Albano Campus is located in Stockholm, the capital of Sweden. Albano is a joint campus of Stockholm University (SU) and the Royal Institute of Technology (KTH). |

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The Promoter confirmed that the Project was implemented as planned, with energy efficiency targets 20% below the threshold established by national norms. The Promoter shared the Energy Performance Certificate for one of the new buildings, confirming the achievement of the energy efficiency targets. For the other three buildings, the energy performance measurements are currently being undertaken. The Promoter expects that also for these three buildings, Energy Performance Certificates will confirm the achievement of the targets.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter that the Project has been implemented in line with the EIB Environmental and Social Standards, applicable at the time of appraisal.
