Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	MAV-START RAIL ROLLING STOCK
Project Number:	2020-0118
Country:	Hungary
Project Description:	Acquisition of 21 double deck Electric Multiple Units to be used for regional connections in Hungary.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The rolling stock purchased within this project complies with the applicable Technical Specifications for Interoperability (TSI) which were required at admission of rolling stock into exploitation.

The project has brought some environmental benefits in terms of reduction of pollutant emissions and noise.

No significant environment or social issues were noted.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
