Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	GRAND EST TRES HAUT DEBIT
Project Number:	2016-0850
Country:	France
Project Description:	The project related to the design and rollout of a PIN (Public Initiative Network) in 7 departments of the Grand Est Region, France (Ardennes, Marne, Aube, Haute-Marne, Meuse, Vosges and Meurthe-et-Moselle). The objective of the project was to deploy a Fibre to the Home (FTTH) network that will pass around 960 000 homes and business premises. The access networks included in the project will be deployed in areas where private operators are not present with very high speed broadband services due to lack of commercial interest.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The Region validated the concessionaire's studies and deployment plans and confirmed the acceptance of the deliverables at the end of the project implementation, without significant deviations with respect to the plan.

No significant environmental and social issues in relation with the current project have been reported.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the promoter during implementation and at completion that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
