Environmental and Social Completion Sheet (ESCS)

Overview

Project Name:	ISALA HOSPITAL
Project Number:	2017-0509
Country:	NETHERLANDS
Project Description:	The project supports the development plan of the ISALA Hospital, a regional hospital organization with five locations in Zwolle, Kampen, Steenwijk, Meppel and Heerde. The main components of the investment plan are the rehabilitation and modernization of existing facilities, the development of a new electronic patient file, replacement investments in equipment and the realization of a new building in Meppel.

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

No significant environmental or social issues were noted.

Hospitals are not specifically mentioned in the EIA Directive 2011/92/EU as amended by 2014/52/EU on Environmental Impact Assessment (EIA), though the project is covered by Annex II of the Directive in relation to urban development. Based on the information provided, no EIA was required for any of the components of this project.

Overall, the new and refurbished facilities will improve the quality of care in the regions where the centres are located. The project aims to improve the delivery of healthcare services in the Netherlands and includes beneficial elements in terms of social cohesion. As such, the project brings health and social benefits to society.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion, based on reports from the promoter during construction, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
