Environmental and Social Completion Sheet (ESCS)¹

Overview

Project Name:	CHISINAU ENERGY EFFICIENCY
Project Number:	2014-0161
Country:	Moldova
Project Description:	Financing the sustainable energy efficiency rehabilitation of 22 public institutions in Chisinau, Republic of Moldova, covering over 175,210 m ² .

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The project was related to the renovation of existing public buildings. The project contributed to a 30% reduction in the final energy consumption of 22 public buildings - 5 kindergartens, 14 schools, and 3 hospital buildings – in Chisinau, resulting in annual final energy savings of 11 GWh and thus helping to mitigate climate change by avoiding about 2.72 kt CO₂eq emissions per year. The refurbishment works were implemented between November 2017 to December 2024.

No significant environmental or social issues were reported or identified during the Project's implementation period.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter and inputs provided by the independent verification consultant that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
