Environmental and Social Completion Sheet (ESCS)¹

Overview

Project Name:	ACSM-AGAM ENERGY EFFICIENCY & CLIMATE ACTION
Project Number:	2019-0260
Country:	Italy
Project Description	<i>The project, being part of the 2019-2023 investment programme of ACSM-AGAM, will comprise a number of investments geographically dispersed throughout the service areas covered by ACSM-AGAM. This is a multi-sector operation including integrated water sector, solid waste, electricity distribution, district heating, public lighting, hydro, energy efficiency, IT and cyber security and smart city schemes.</i>

Summary of Environmental and Social Assessment at Completion

EIB notes the following Environmental and Social performance and key outcomes at Project Completion.

The project consisted in an Investment Programme covering various energy and environmental sub-sectors, namely district heating, micro-cogeneration, public lighting, electricity distribution, hydropower, energy efficiency in buildings and in street lighting, waste collection and treatment, water supply, the development of sustainable mobility solutions and a component of ICT infrastructure, aimed at the efficiency, unification and security of the group ICT network.

The project contributed to a reduction of energy consumption and a reduction of CO₂ emissions. The project contributed to Italy's environmental and climate action targets. In addition, the operation led to improved air and water quality standards and the reduction in solid waste pollution.

No Environmental Impact Assessment was required for the implementation of the project. The Promoter did not report any environmental and social concern.

Temporary nuisance due to construction works (dust, noise) were mitigated through appropriate site organisation and construction management.

Summary opinion of Environmental and Social aspects at completion:

EIB is of the opinion based on reports from the Promoter, that the Project has been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
