## Environmental and Social Completion Sheet (ESCS)

### Overview

|                      |   |
|----------------------|---|
| Project Name:        | LONDON CROSSRAIL (TEN) & CROSSRAIL ROLLING STOCK  |
| Project Number:      | 20080288 & 20110244   |
| Country:             | United Kingdom  |
| Project Description: | The Project (Elisabeth Line at completion) consisted of the construction of a 120km East-West urban rail link connecting central London with some of its main outskirts and with TEN-T nodes of Heathrow Airport and high-speed railway stations of Paddington and Stratford. The separate rolling stock project is part of the same line and consists of the acquisition of approximately 60 new trains and the construction of the depot at Old Oak Common. |

### Summary of Environmental and Social Assessment at Completion

#### Summary opinion of Environmental and Social aspects at completion

The Project was subject to EU legislation until the Withdrawal Agreement of the UK from the EU. The Project was fully disbursed ahead of this date, and no outstanding environmental or social issues have been reported by the Promoter at completion or during the regular monitoring.

Hence, the Project is considered to have been implemented in line with EIB Environmental and Social Standards, applicable at the time of appraisal.
